Retail
from SQA

The Retail sector faces many challenges in the current financial climate but, as the UK's largest private sector employer, it is widely recognised as a key sector to provide opportunities and drive the country's recovery and success.

At the heart of this is the investment in workforce skills and knowledge needed to put the sector in the best position to move forward successfully.

Qualifications from SQA, one of the UK's leading Awarding Organisations, can help to achieve this goal.

We are experts in developing relevant qualifications delivering the real skills, knowledge and progression routes in demand by employers and learners alike.

Customised Awards

We can provide tailored solutions to meet your exact requirements. Our customised awards service develops qualifications specifically for your centre's needs, with the benefits of gaining a nationally recognised qualification and support from a leading Awarding Organisation.

Working with SQA

We have years of experience and success working with colleges, training providers, employers and schools throughout the UK and worldwide.

If you are a private company, public or third sector organisation, our qualifications can be delivered to your staff by SQA approved colleges or training providers or by becoming an approved SQA centre in your own right.
