[SQA Unit Code – DX5F 04] V2

SfL95 Evaluate information on the procurement of supplies in the supply chain

Overview

What this standard is about

This standard is about evaluating information on the procurement of supplies. It deals with obtaining information, identifying critical factors and the demand for supplies. It involves ensuring that the evaluation helps improve performance and providing those results to colleagues.

Who this standard is for

This standard is for supply chain practitioners. This could, for example be in purchasing, freight logistics operations or transport management roles.
