
Overview

What this standard is about

This standard is about applying improvements to the supply chain. It deals with obtaining information and applying improvements in accordance with plans and procedures. It involves collating and analysing data, identifying problems and providing feedback.

Who this standard is for

This standard is for supply chain practitioners. This could, for example be in purchasing, freight logistics operations or transport management roles.

[SQA Unit Code – DX50 04] V2

SfL115 Apply improvements to the supply chain
