

SFLSCM117(SQA Unit Code-DX56 04) V2

SfL117 Control supplies at storage locations and facilities

Overview

What this standard is about

This standard is about controlling supplies at storage locations and facilities. It deals with collating and analysing information in regard to the supplies being stored. It involves monitoring the location and condition of supplies, identifying any problems and providing results of analysis and recommendations in regard to the control of supplies.

Who this standard is for

This standard is for supply chain practitioners. This could, for example be in purchasing, freight logistics operations or transport management roles.

SFLSCM117(SQA Unit Code-DX56 04) V2

SfL117 Control supplies at storage locations and facilities

Performance criteria

- You must be able to:*
- P1 confirm information on the **supplies** being stored
 - P2 obtain information on the **supplies** being stored
 - P3 collate and prepare data for the analysis
 - P4 analyse information on the **storage locations and facilities**
 - P5 monitor the location and condition of the **supplies** being stored
 - P6 identify any problems with the **supplies** being stored
 - P7 provide the results of the monitoring to **colleagues**
 - P8 comply with procedures for controlling the **supplies** being stored
