

[SQA Unit Code – DX5E 04] V1

SfL104 Evaluate information on the storage of supplies

Overview

What this standard is about

This standard is about evaluating information on the storage of supplies. It deals with obtaining and evaluating information in regard to storage. It involves identifying availability of supplies, resolving any problems and providing results of evaluation which comply with requirements.

Who this standard is for

This standard is for supply chain practitioners. This could, for example be in purchasing, freight logistics operations or transport management roles.
