## Overview

### **What this standard is about**

This standard is about monitoring the distribution of supplies. It deals with obtaining information in regard to distribution requirements. It involves collating and analysing information, identifying any problems and providing results of analysis and making recommendations in regard to distribution requirements.

### **Who this standard is for**

This standard is for supply chain practitioners. This could, for example be in purchasing, freight logistics operations or transport management roles.

# [SQA Unit Code – DX65 04] V1

## SfL130 Monitor the distribution of supplies

---
