

SFHPHARM30 - SQA Unit Code FA38 04

Prepare to conduct a review of an individual's medicines

Overview

This standard describes the skills, knowledge and understanding required to prepare the relevant documentation and undertake initial discussions with an individual (or their carer) in preparation for a review of the medicines prescribed/taken by an individual. This initial discussion and preparation of documents is not intended to be a medication or a Medicines Use Review but a first step in preparing the individual or their carer by providing an explanation of the review process, making them comfortable and obtaining basic information to inform the review process. Users of this standard will need to ensure that practice reflects up to date information and policies.

Performance criteria

- You must be able to:*
- P1 ensure that you work in accordance with the Standard Operating Procedures and within the scope of your responsibility and practice at all times
