

Overview

This Standard is part of the Customer Service Theme of Delivery. This Theme covers Customer Service behaviours and processes that have most effect on the customer experience during Customer Service delivery. Remember that customers include everyone you provide a service to. They may be external to your organisation or they may be internal customers.

This Standard is all about how you deliver consistent and reliable service to customers. As well as being good with people, you need to work with your organisation's service systems to meet or exceed customer expectations. In your job there will be many examples of how you combine your approach and behaviour with your organisation's systems. You need to prepare for each transaction with a customer, deal with different types of customers in different circumstances and check that what you have done has met customer expectations. To meet this standard you have to deliver excellent customer service over and over again.
