

FP14 04 (SFH CHS27) — Encourage and Support Individuals Undergoing Dialysis Therapy

Overview

This standard covers encouraging and supporting individuals undergoing dialysis therapy, both haemodialysis and Continuous Ambulatory Peritoneal Dialysis (CAPD), to optimise their own health and enabling them, and their carers, to carry out dialysis procedures.

The standard also covers supporting individuals undergoing dialysis, and their carers, to adjust to changes brought about by the individuals condition and treatment. It is recognised within this standard that support and advice will always be given as part of an overall plan of care determined by professionals, such as doctors, nurses, dieticians and social workers, within the care team.

Users of this standard will need to ensure that practice reflects up to date information and policies.
