

---

## Overview

This standard is about

- 1 interpreting information
- 2 adopting safe and healthy working practices
- 3 selecting materials, components and equipment
- 4 installing in situ, reinforcing steel or prefabricated reinforcing steel sections for concrete structures

### Performance criteria

- You must be able to:*
- P1 interpret the given information relating to the work and resources to confirm its relevance
  - P2 comply with the given, relevant legislation and official guidance to carry out your work and maintain safe and healthy work practices
  - P3 select the required quantity and quality of resources for the methods of work
  - P4 comply with organisational procedures to minimise the risk of damage to the work and surrounding area
  - P5 comply with the given contract information to carry out the work efficiently to the required specification
  - P6 complete the work within the allocated time, in accordance with the programme of work

### Knowledge and understanding

*You need to know and understand:*

#### Performance Criteria 1

##### Interpretation of information

- K1 the organisational procedures developed to report and rectify inappropriate **information** and unsuitable **resources**, and how they are implemented
- K2 the types of **information**, their source and how they are interpreted
- K3 the organisational procedures to solve **problems** with the **information** and why it is important they are followed

#### Performance Criteria 2

##### Safe work practices

*You need to know and understand:*

- K4 the level of understanding operatives must have of **information** for relevant, current **legislation and official guidance** and how it is applied
- K5 how **emergencies** should be responded to and who should respond
- K6 the organisational **security procedures** for tools, equipment and personal belongings
- K7 what the accident reporting procedures are and who is responsible for making the report
- K8 why, when and how health and safety control equipment should be used

#### Performance Criteria 3

##### Selection of resources

*You need to know and understand:*

- K9 the characteristics, quality, uses, sustainability, limitations and defects associated with the **resources** and how defects should be rectified
- K10 how the **resources** should be used and how any **problems** associated with the **resources** are reported
- K11 the organisational procedures to select **resources**, why they have been developed and how they are used
- K12 the **hazards** associated with the **resources** and **methods of work** and how they are overcome

### Performance Criteria 4

#### Minimise the risk of damage

*You need to know and understand:*

K13 how to **protect work** from damage and the purpose of protection

K14 why **disposal of waste** should be carried out safely and how it is achieved

### Performance Criteria 5

#### Meet the contract specification

*You need to know and understand:*

K15 how **methods of work**, to meet the specification, are carried out and **problems** reported

K16 how **maintenance** of tools and equipment is carried out

### Performance Criteria 6

#### Allocated time

*You need to know and understand:*

K17 what the **programme** is for the work to be carried out in the estimated, allocated time and why deadlines should be kept

### Additional Information

#### Scope/range related to performance criteria

##### Performance Criteria 1

- 1 interpretation of drawings, specifications, schedules, bending schedules, method statements, risk assessments and manufacturers' information related to the work to be carried out

##### Performance Criteria 2

- 2 avoidance of risk by complying with the given information relating to at least three of the following
  - 2.1 methods of work
  - 2.2 safe use of health and safety control equipment
  - 2.3 safe use of access equipment
  - 2.4 safe use, storage and handling of materials
  - 2.5 safe use and storage of tools and equipment
  - 2.6 specific risks to health

##### Performance Criteria 3

- 3 selection of resources associated with own work
  - 3.1 materials, components and fixings
  - 3.2 tools and equipment

##### Performance Criteria 4

- 4 protection of the work and its surrounding area from damage
- 5 minimise damage and maintain a clean work space
- 6 disposal of waste in accordance with current legislation

##### Performance Criteria 5

- 7 demonstration of work skills to sort, measure, mark out, fit, position and secure
- 8 use and maintain hand tools, portable power tools and ancillary equipment
- 9 installation in situ, of reinforcement steel or prefabricated sections of reinforcement steel to given working instructions in order to form at least four of the following concrete structures
  - 9.1 beams
  - 9.2 bases
  - 9.3 columns
  - 9.4 slabs
  - 9.5 staircases
  - 9.6 walls

**Performance Criteria 6**

10 completion of own work within the estimated, allocated time to meet the needs of other occupations and/or client

### Scope/range related to knowledge and understanding

#### **Disposal of waste**

- 1 environmental responsibilities, organisational procedures, manufacturers' information, statutory regulations and official guidance

#### **Emergencies**

- 2 operative's response to situations in accordance with organisational authorisation and personal skills when involved with
  - 2.1 fires, spillages, injuries
  - 2.2 emergencies relating to occupational activities

#### **Hazards**

- 3 those identified by risk assessment, method of work, manufacturers' technical information, statutory regulations and official guidance

#### **Health and safety control equipment**

- 4 identified by the principles of protection for occupational use, types and purpose of each type, work situations and general work environment
  - 4.1 collective protective measures
  - 4.2 personal protective equipment (PPE)
  - 4.3 respiratory protective equipment (RPE)
  - 4.4 local exhaust ventilation (LEV)

#### **Information**

- 5 drawings, site instructions, specifications, schedules, bending schedules, method statements, risk assessments, manufacturers' information, current regulations and official guidance associated with fixing steel reinforcement

#### **Legislation and official guidance**

- 6 this relates to the operative's responsibilities regarding potential accidents and health hazards whilst working in the workplace, below ground level, in confined spaces, at height, with tools and equipment, with materials and substances, with movement/storage of materials and by manual handling and mechanical lifting

#### **Maintenance**

- 7 operative care of hand tools and/or portable power tools and ancillary equipment

### **Methods of work**

- 8 application of knowledge for safe and healthy work practices, procedures and skills relating to the method/area of work and materials used to:
  - 8.1 extract details from steel fixing drawings (hardcopy, digital and building information modelling)
  - 8.2 complete work to agreed quality criteria
  - 8.3 identify grades of steel
  - 8.4 work to given tolerance
  - 8.5 fix steel in situ for horizontal and vertical elements
  - 8.6 relate shaped steel to bending schedules
  - 8.7 identify sequence of fixing
  - 8.8 identify integration and interface with embedded items
  - 8.9 prepare mesh and steel bar for in situ installation
  - 8.10 prepare prefabricated steel sections for in situ installation
  - 8.11 install mesh, steel bar, spacers, cover block and ties in situ
  - 8.12 position chairs, cover blocks and spacers
  - 8.13 secure reinforcement steel in situ
  - 8.14 secure prefabricated sections of reinforcement steel in situ
  - 8.15 incorporate reinforcement coupler and continuity systems
  - 8.16 move and position steel
  - 8.17 sort, store and protect steel and fixings
  - 8.18 use hand tools, portable power tools and equipment
  - 8.19 work at height
  - 8.20 use access equipment
- 9 team work and communication
- 10 needs of other occupations associated with installing in situ, reinforcement steel or prefabricated reinforcement steel sections

### **Problems**

- 11 those arising from information, resources and methods of work
  - 11.1 own authority to rectify
  - 11.2 organisational reporting procedures

### **Programme**

- 12 types of progress charts, timetables and estimated times
- 13 organisational procedures for reporting circumstances which will affect the work programme

### **Protect work**

14 protect work against damage from general workplace activities, other occupations and adverse weather conditions

### **Resources**

15 materials, components and equipment relating to types, quantity, quality sizes and the sustainability of standard and/or specialist:

15.1 pre-cut and bent components, reinforcement steel, tie wire and spacers

15.2 hand and/or portable power tools and equipment

16 methods of calculating quantity, length, area and wastage associated with the method/procedure to install reinforcement steel or prefabricated reinforcement steel in situ

### **Security procedures**

17 site, workplace, company and operative

# COSVR534 – SQA Unit Code FW1G 04

## Fix steel in situ

---

**Developed by** ConstructionSkills

---

**Version number** 2

---

**Date approved** January 2013

---

**Indicative review date** January 2018

---

**Validity** Current

---

**Status** Original

---

**Originating organisation** ConstructionSkills

---

**Original URN** VR534

---

**Relevant occupations** Construction and Building Trades

---

**Suite** Steelfixing (Construction)
