

Unit and Assessment Specification

Unit title	Manage the Transfer of Outputs and Disposal of Residues from Hazardous Waste Transfer and Recovery Operations
SQA code	H4KG 04
SCQF level	7
SCQF credit points	11
SSC ref	WM7f

History of changes

Title		Manage the Transfer of Outputs and Disposal of Residues from Hazardous Waste Transfer and Recovery Operations				
Learning Outcomes		Assessment Criteria		Observation	Question and Answer	Simulation/ Realistic working environment
The learner will:		The learner can:				
1	Manage the transfer of outputs and disposal of residues from hazardous waste transfer and recovery.	1.1	Implement systems and procedures for the transfer and transport of outputs and the disposal of residues from the hazardous waste transfer or recovery operation in accordance with legislative and organisational requirements.	x	x	
		1.2	Make arrangements for an adequate supply of resources needed to carry out the loading, transport or energy transfer operations from the site.	x	x	
		1.3	Identify hazards and minimise risks to health, safety and the environment from hazardous waste transfer and transport operations and comply with legal and organisational requirements for reporting risks to health, safety and the environment.	x	x	

Learning Outcomes The learner will:	Assessment Criteria The learner can:	Observation	Question and Answer	Simulation/ Realistic working environment
	1.4 Implement and maintain recording and information systems specifically relating to the transfer and transport of outputs and disposal of residues from the process carried out at the site in accordance with legislative and organisational requirements.	x	x	
	1.5 Make arrangements for the safe loading of the outputs and residues from the hazardous waste transfer and recovery processes.	x	x	
	1.6 Implement procedures and controls for the safe transfer of energy outputs from the hazardous waste transfer or recovery process.	x	x	
	1.7 Maintain the quality of the organisation's work by ensuring that all procedures and hazardous waste transfer and disposal processes are adhered to.	x	x	

Learning Outcomes The learner will:	Assessment Criteria The learner can:	Observation	Question and Answer	Simulation/ Realistic working environment
2 Use and communicate data and information.	2.1 Make sure the programme of work and operational instructions relating to the transfer and transport operations contain all the information needed for site personnel to carry out the process in line with organisational procedures.	x	x	
	2.2 Communicate the programme of work and operational instructions to all site personnel in ways which suit the types of information being given.	x	x	
	2.3 Ensure that documentation is completed accurately and complies with legislation and organisational requirements.	x	x	
	2.4 Keep accurate records of all outputs and residues leaving the site in accordance with legislative and organisational requirements.	x	x	
	2.5 Advise colleagues and managers about accidents, incidents, interruptions to work or any situations that require their attention.	x	x	
	2.6 Maintain a record of training for all staff employed on transfer, recovery and transport operations on the site.	x	x	

Learning Outcomes The learner will:	Assessment Criteria The learner can:	Observation	Question and Answer	Simulation/ Realistic working environment
3 Resolve problems which arise from the transfer of outputs and disposal of residues from hazardous waste transfer and recovery,	3.1 Take steps to rectify any staff or transport shortages, equipment deficiencies or external causes that prevent the transfer, transport or disposal of outputs and residues.	x	x	
	3.2 Seek advice to resolve situations which are outside the responsibility of the job role.	x	x	
	3.3 Formulate procedures for dealing with spillages on site and ensure that staff understand and follow the prescribed procedures.	x	x	
4 Describe appropriately the relevant legislation, regulations and codes of practice applicable to safety, health and the environment.	4.1 Describe appropriately the relevant legislation, regulations and codes of practice applicable to safety, health and the environment.		x	
	4.2 Describe appropriately waste management legislation and guidance that is applicable to waste management sites.		x	
	4.3 Describe appropriately the types of personal protective equipment (PPE) required for different types of waste and the procedures for care, maintenance and use of this equipment.	x	x	

Learning Outcomes The learner will:	Assessment Criteria The learner can:	Observation	Question and Answer	Simulation/ Realistic working environment
	4.4 Describe appropriately the regulatory requirements and company procedures for dealing with unauthorised wastes. 4.5 Describe appropriately the organisational environmental policy and procedures applicable to the site. 4.6 Describe appropriately risk analysis to minimise hazards to personnel and the environment for the whole workplace. 4.7 Describe appropriately the procedures for the proper management control of work activities on the site.	x	x	
	4.5 Describe appropriately the organisational environmental policy and procedures applicable to the site.	x	x	
	4.6 Describe appropriately risk analysis to minimise hazards to personnel and the environment for the whole workplace.	x	x	
	4.7 Describe appropriately the procedures for the proper management control of work activities on the site.	x	x	
5 Understand the specific regulation procedures and requirements for managing the transfer of outputs and disposal of residues from hazardous waste transfer and recovery operations.	5.1 Describe appropriately the organisational procedures for the management of personnel and work activities. 5.2 Describe appropriately the specific legislative requirements and guidance applicable to the transfer and transport of hazardous waste from the site. 5.3 Describe appropriately planning permission and the organisation's working plan for the site.	x	x	
	5.2 Describe appropriately the specific legislative requirements and guidance applicable to the transfer and transport of hazardous waste from the site.	x	x	
	5.3 Describe appropriately planning permission and the organisation's working plan for the site.	x	x	

Learning Outcomes The learner will:	Assessment Criteria The learner can:	Observation	Question and Answer	Simulation/ Realistic working environment
	5.4 Describe appropriately the quality inspection and identification procedures and the handling requirements for the types of hazardous waste recovered at the site.	x	x	
	5.5 Describe appropriately the operating procedures for all machinery, plant and equipment used on the site.	x	x	
	5.6 Describe appropriately the lifting and handling techniques suitable for the recovered hazardous wastes and residues that are being transported from the site.	x	x	
	5.7 Describe appropriately the onsite procedures for the management of storage of the outputs and residues from transfer processes.	x	x	
	5.8 Describe appropriately the records required by legislation and by company procedures in relation to the transfer and transport of recovered hazardous wastes and residues.	x	x	
	5.9 Describe appropriately the procedures for dealing with spillages.			

Learning Outcomes The learner will:	Assessment Criteria The learner can:	Observation	Question and Answer	Simulation/ Realistic working environment
	5.10 Describe appropriately the organisational procedures for transport operations and the supply and use of the transport resources required.	x	x	
	5.11 Describe appropriately the procedures and documentation required for the transport of hazardous waste to comply with legislative requirements and guidance.	x	x	
	5.12 Describe appropriately the procedures for dealing with residues, out of specification recovered hazardous waste and any other rejects from the process.	x	x	
	5.13 Describe appropriately the regulations for the export of energy from the site and the controls required for the export process.	x	x	
	5.14 Describe appropriately the methods used to communicate operational instructions orally and in writing.	x	x	
	5.15 Determine the storage and handling implications for the recovered hazardous waste types produced on the site.	x	x	

Learning Outcomes The learner will:	Assessment Criteria The learner can:	Observation	Question and Answer	Simulation/ Realistic working environment
	5.16 Determine the types, functions and limitations of hazardous waste handling equipment available for use on the site. 5.17 Determine how to use risk assessment and the identification of potential work-related hazards and difficulties. 5.18 Determine the potential hazards to safety, health and the environment arising from the loading and transport of hazardous wastes. 5.19 Determine how to interpret documentation and verify that the information is accurate and relates to the recovered hazardous wastes and residues. 5.20 Determine the importance of ensuring people's understanding of operational instructions and how to check understanding.	x	x	
	5.17 Determine how to use risk assessment and the identification of potential work-related hazards and difficulties.	x	x	
	5.18 Determine the potential hazards to safety, health and the environment arising from the loading and transport of hazardous wastes.	x	x	
	5.19 Determine how to interpret documentation and verify that the information is accurate and relates to the recovered hazardous wastes and residues.	x	x	
	5.20 Determine the importance of ensuring people's understanding of operational instructions and how to check understanding.		x	
6 Work in a manner which underpins effective performance.	6.1 Be assertive in making decisions.	x	x	
	6.2 Pursue accountability of staff for delegated responsibilities.	x	x	
	6.3 Reflect critically on personal achievements to inform future actions.	x	x	

Additional information about the Unit
Unit purpose and aim(s)
This Unit is about managing the transfer of outputs and safe disposal of residues arising from waste Transfer and recovery operations for Hazardous Waste.
Details of the relationship between the Unit and relevant national occupational standards (if appropriate)
WM7f
Details of the relationship between the Unit and other standards or curricula (if appropriate)
N/A
Assessment requirements specified by a sector or regulatory body (if appropriate)
Please refer to EUSSC Assessment Principles at www.euskills.co.uk

Assessment (evidence) Requirements
Please see Unit content or SQA/WAMITAB Workbook.
Guidance on Instruments of Assessment
Please see corresponding SQA/WAMITAB Workbook.
