

---

## Overview

This standard is designed for you if your work involves the registration of donors. The standard applies to both whole blood and blood component collection, to all types of donor session and a range of donors in relation to the donation, the registration of donor attendance and the checking process that has taken place.

Users of this standard will need to ensure that practice reflects up to date information and policies.

## SFHBDS7 - SQA Code HD1Y 04

### Register donors at donation sessions

---

#### Performance criteria

*You must be able to:*

- P1 obtain information, when required, in a way which encourages the donor to provide full answers, including positive identification and donor status
- P2 check the information given by the donor against existing records and identify any discrepancies, seek further details and clarification if the information obtained does not match existing records
- P3 answer any questions from the donor correctly and in an appropriate manner or refer to the appropriate person if this is beyond your own responsibility and knowledge
- P4 maintain confidentiality of information
- P5 check the donor's understanding of the information given and use alternative approaches and methods if possible, taking into account the donor's individual needs
- P6 document all relevant information clearly, accurately and correctly in the appropriate donor's records
- P7 give the donor clear information on the donation procedure appropriate to their individual needs and concerns including the next stage in the process

### Knowledge and understanding

*You need to know and understand:*

- K1 the current European and National legislation, national guidelines, organisational policies and protocols in accordance with Clinical/Corporate Governance which affect your work practice in relation to registering donors at donation sessions
- K2 your responsibilities and accountability in relation to the current European and National legislation, national guidelines and local policies and protocols and Clinical/Corporate Governance
- K3 the duty to report any acts or omissions in care that could be detrimental to yourself, other individuals or your employer
- K4 the importance of working within your own sphere of competence and seeking advice when faced with situations outside your sphere of competence
- K5 the importance of proper registration
- K6 how to apply the principles of good manufacturing practice
- K7 how quality incidents are prevented, identified, reported and recorded
- K8 the differences between new, newly enrolled, returning/lapsed, regular/established, autologous, appointment, non-appointment donors and how this affects the amount, type and requirement of information which is sought from them
- K9 how different record systems impact on when, how and if registration is undertaken
- K10 the differences between long term donor records and short term session documents and how each is created, accessed, checked and updated
- K11 how to produce data summaries of session outcomes if they are required
- K12 the full management of information process and how registration fits into that process
- K13 why it is essential that positive identification is completed and the importance of reporting discrepancies
- K14 how to deal with breakdowns in information systems, who to report to and the limits of your own sphere of competence to deal with these
- K15 safe techniques for moving and handling
