

SFHGEN10 - SQA Code HD39 04

Collect, transport and set down passengers and/or materials and equipment within the health sector

Overview

This standard covers the operation and control of vehicles for the transport of people, material and equipment on public roads. It also covers collecting, transporting and setting down passengers and/or materials and equipment. The vehicles could include articulated vehicles, coaches, vans, minibuses or cars. The standard is not designed to assess basic driving skills and knowledge of the Highway Code. It is necessary that you have passed a driving test and hold a valid and appropriate driving licence, which must be produced as additional evidence. This standard does not cover emergency driving skills ('blue light driving').

Users of this standard will need to ensure that practice reflects up to date information and policies.

SFHGEN10 - SQA Code HD39 04

Collect, transport and set down passengers and/or materials and equipment within the health sector

Performance criteria

- You must be able to:*
- P1 stop at authorised and required places at the appropriate times and position the vehicle safely and legally for passengers to board and alight
 - P2 help passengers as necessary, according to their wishes and needs when boarding or alighting the vehicle and to secure their belongings
 - P3 use safe moving and handling techniques when appropriate
 - P4 use specialist equipment for loading/unloading and assisting passengers to board/alight
 - P5 make sure that the vehicle is not moved until all passengers have boarded safely and are seated and that they and their belongings are secure
 - P6 make sure that passengers have alighted safely and are clear of the vehicle before closing the doors securely and moving off
 - P7 check and confirm that materials and equipment being carried are stable
 - P8 ensure that materials and equipment are unloaded safely in the appropriate place
 - P9 ensure that the heating, lighting and ventilation are maintained at comfortable levels for passengers
 - P10 give accurate information on journey and arrival time, in an appropriate and understandable manner, and the implications of any delays to passengers, answering any questions clearly and accurately
 - P11 make suitable arrangements in accordance with organisational policy when passengers need further transport and/or escort to get to their final destination
 - P12 undertake all vehicle manoeuvres in a safe, effective and controlled manner
 - P13 drive the vehicle in a manner which:
 - P13.1 optimises fuel consumption
 - P13.2 minimises wear and tear and risk of accidental damage
 - P14 correctly and promptly identify any actual or potential:
 - P14.1 hazards in the driving environment
 - P14.2 problems in the vehicle and its load
 - P15 take the appropriate action if hazards and problems are identified
 - P16 take the route which is appropriate to organisational requirements and traffic and road conditions
 - P17 report any significant delays to the journey to the appropriate person when possible and practical
 - P18 park the vehicle safely and legally at all times, and lock and secure the vehicle when it is left unattended

SFHGEN10 - SQA Code HD39 04

Collect, transport and set down passengers and/or materials and equipment within the health sector

Knowledge and understanding

You need to know and understand:

- K1 the current European and National legislation, national guidelines, organisational policies and protocols in accordance with Clinical/Corporate Governance which affect your work practice in relation to operating and controlling vehicles and collecting, transporting and setting down passengers and/or materials and equipment within the health sector
- K2 your responsibilities and accountability in relation to the current European and National legislation, national guidelines and local policies and protocols and Clinical/Corporate Governance
- K3 the duty to report any acts or omissions in care that could be detrimental to yourself, other individuals or your employer
- K4 the importance of working within your own sphere of competence and seeking advice when faced with situations outside your sphere of competence
- K5 how to plan suitable routes before and during journeys, and the importance of doing this within organisational guidelines
- K6 what constitutes significant delays, why it is important to report them, and who needs to be informed
- K7 the possible implications and consequences of a delay in the journey (e.g. people arriving late, products and materials not being in appropriate storage conditions).
- K8 the importance of showing courtesy to other road users
- K9 the implications of driving a vehicle which bears the name and logo of your employer (e.g. the need to present a positive image of the service)
- K10 the safety and legal factors you need to consider when deciding where to stop for passengers to board and alight
- K11 who has responsibility for making sure that passengers wear seat belts if they are fitted
- K12 why it is important not to move the vehicle until passengers boarding and leaving are safe and secure
- K13 vehicle controls and equipment and their function
- K14 the specific vehicle capability and handling characteristics - and how these affect the way vehicles should be driven in different traffic conditions and weather and light conditions
- K15 what affects fuel consumption, wear and tear and the risk of accidental damage
- K16 the main sources and causes of hazards when driving
- K17 safe driving and manoeuvring techniques, including defensive driving techniques.
- K18 how to plan suitable routes before and during journeys, and the importance of doing this within organisational guidelines

SFHGEN10 - SQA Code HD39 04

Collect, transport and set down passengers and/or materials and equipment within the health sector

- K19 how to help passengers board and leave - particularly those with limited mobility, with a sensory impairment, or those who are temporarily unwell
- K20 where and how passengers' personal belongings should be stored
- K21 the sorts of circumstances that might mean that passengers need further help to get home, and how to organise such help (e.g. if the journey has been delayed, if the person has been unwell)
- K22 the particular storage requirements for items which are temperature-sensitive (e.g. blood collection packs, blood products), and what to do if these requirements cannot be met
- K23 what affects fuel consumption, wear and tear and the risk of accidental damage
- K24 how to monitor the condition of the vehicle (e.g. temperature, fuel levels) and the security of the load and what to do if there are problems
- K25 the factors to consider when parking a vehicle to unload the contents
