Higher National Unit specification: support notes

Unit title: Make-up Artistry: Fashion and Photographic Make-up

This part of the Unit specification is offered as guidance. The support notes are not mandatory.

While the exact time allocated to this Unit is at the discretion of the centre, the notional design length is 80 hours.

Guidance on the content and context for this Unit

Outcome 1, introduces the candidate to fashion and catwalk make up, moving up a level from basic make up. The candidate will plan, produce and photograph two fashion make ups and two catwalk make ups. The fashion make up will incorporate working with both male and female models. When carrying out the fashion and catwalk make ups the candidate will enhance the make up effect by use of either individual or strip eyelashes.

The candidates will produce fashion and catwalk make ups which are influenced directly from current fashion trends; they will show clearly their inspirational influences within their research and design briefs. These influences will be from researching the latest fashion publications, internet sources, books and TV

Outcome 2 provides the candidate with knowledge and understanding of make up specific to photography. The candidate will demonstrate contouring effects prior to the application of photographic make up, two male and female photographic make ups will be planned, produced and photographed. Candidates will display this evidence in both black and white and colour photographs and must include a minimum of one from each.

Outcome 3 provides knowledge and understanding of working with design briefs. Candidates are required to analyse design briefs and execute their direction. Candidates will participate in Studio Styling within their practical assessments in make up contained in Outcomes 1 and 2: Studio Styling will enable the candidate to take control of the positioning and pose required of the model.

Guidance on the delivery and assessment of this Unit

Candidates will engage in team work by liaising with designers, those concerned with the finished result, from either a fashion show or a photographic shoot, where a direct working relationship with the photographer is essential. The practical assessment aspect of this Outcome will be brought together with the completion of Outcome 1 and 2.

Photographic portfolio evidence for Outcomes 1, 2 and 3 maybe integrated

Opportunities for developing Core Skills

The delivery and assessment of this Unit may contribute towards the component 'Planning and Organising' of the Core Skill Problem Solving at Intermediate 2 because of the requirements to design and apply make up. The general skill for this component is 'plan, organise and complete a task'.

In both formative and summative assessment the candidate should be encouraged to work to a design brief taking account of all possible variables and cover the need to consider contingencies. In addition candidates need to consider time management issues. Candidates will be required to source relevant physical resources including products, tools and equipment. Within a work based context candidates must also decide how the task will be managed and carried out to industry standards.

Unit title: Make-up Artistry: Fashion and Photographic Make-up

The Core Skills of Working with Others at Higher could also be developed within this Unit in particular in relation to the work for Outcome 3. Working with Others involves the ability to work with other to plan, agree and take responsibility for tasks, to support co-operative working in appropriate ways, and to review the effectiveness of one's own contribution. For example, this would fit with a group activity to produce a collection of photographs for a certain make up theme. The general skill at higher level is 'Work with others in a group to analyse, plan and complete a complex activity. Candidates can be encouraged to analyse the task and negotiate goals, roles and responsibilities, anticipating and responding to needs of others, supporting cooperative working and evaluating and drawing conclusions the effectiveness of one's own contribution. This Core Skill could be developed without formal certification.

Open learning

Although the theoretical aspects could be studied through Open Learning, the high level of practical competencies required would create difficulties in the delivery and assessment of this Unit.

For further information and advice please refer to *Assessment and Quality Assurance for Open and Distance Learning* (SQA, February 2001 — publication code A1030).

Candidates with additional support needs

This Unit specification is intended to ensure that there are no artificial barriers to learning or assessment. The additional support needs of individual candidates should be taken into account when planning learning experiences, selecting assessment instruments or considering alternative Outcomes for Units. For information on these, please refer to the SQA document *Guidance Assessment Arrangements for Candidates with Disabilities and/or Additional Support Needs*, which is available on the SQA website www.sqa.org.uk.
