## **Higher National Unit specification: support notes (cont)**

### **Unit title:** Communication in Gaelic: Developing Basic Listening and Speaking Skills

This Unit embeds the National Language Standards (revised 2005) for SVQ level 2 Reading and Writing. The National Language Standards are published by CILT, The National Centre for Languages, 20 Bedfordbury, London, WC2N 4LB.

The Unit is also benchmarked against Intermediate 2/Standard Grade Credit level.

### **Guidance on the delivery and assessment of this Unit**

This Unit is likely to form part of a number of group awards where it is recognised that knowledge of a language will either be a necessary or a beneficial skill for candidates when looking for employment. It can also be delivered as a stand alone unit for those wishing to learn the language for social purposes.

Although the Unit is expressed in generic terms, where possible, it should be related to a context that is familiar to candidates.

Each of the two Outcomes refers to a separate skill (listening, speaking) but it is assumed that tutors will teach skills in an integrative manner.

Language structures appropriate to this level will underpin all Outcomes.

Assessment will be by two Instruments of Assessment.

An opportunity for reassessment should be given where candidates do not achieve a Pass. A new instrument of assessment should be chosen.

#### ***Opportunities for developing Core Skills***

There are no opportunities to develop Core Skills in this Unit.

### **Open learning**

This Unit could be delivered by distance learning. However, it would require planning by the centre to ensure the sufficiency and authenticity of candidate evidence. Arrangements would have to be made to ensure that the assessments for Outcome 1 and Outcome 2 are delivered in a supervised environment under controlled conditions.

For information on normal open learning arrangements, please refer to the SQA guide *Assessment and Quality Assurance of Open and Distance Learning* (SQA, 2000).

### **Candidates with disabilities and/or additional support needs**

The additional support needs of individual candidates should be taken into account when planning learning experiences, selecting assessment instruments, or considering alternative Outcomes for Units. Further advice can be found in the SQA document *Guidance on Assessment Arrangements for Candidates with Disabilities and/or Additional Support Needs* ([www.sqa.org.uk](http://www.sqa.org.uk)).

## **General information for candidates**

### **Unit title:** Communication in Gaelic: Developing Basic Listening and Speaking Skills

This Unit is designed to equip you with the ability to deal orally with a number of commonly arising situations in the workplace that involve using Gaelic. It is primarily intended for candidates who expect to take up a post where some knowledge of Gaelic would be beneficial or essential, or for those who want to gain a basic knowledge of the language for personal or social reasons. The Unit may be studied alone or as a means to proceed to the second unit: Communication in Gaelic: Developing Basic Reading and Writing Skills, or as part of any Group Award programme.

This Unit involves the kind of tasks that a person working in a company or organisation dealing with international clients may be expected to be able to perform, either in the UK or abroad. It will also enable you to use the language in a social context, either when travelling abroad or dealing with foreign visitors in the UK. To help you gain this ability you will develop all the skills necessary to function in another language at this level, including intercultural competence. You will also increase your knowledge about and understanding of the essential structures of the language you are studying. The language tasks will be practical and related to the context. You will be encouraged to work with other candidates in pairs or small groups, and role-play will form an important part of the unit. There will also be a requirement for private study. Your tutor will guide you on this.

Overall, the knowledge and skills gained from this Unit will enable you to move to the next level, and to work towards becoming an independent language learner. This may help you in the future if you wish, choose or need to start learning another language for either work or personal reasons.

### **Assessment**

In order to complete this Unit successfully, you will be required to complete a range of tasks in which you will demonstrate that you can use some of the basic structures of the language.

You must achieve a satisfactory level of performance in two assessments, which test the skills of Listening and Speaking. These will be conducted under controlled conditions towards the end of the Unit, and no textbooks or handouts will be allowed. The assessments should last about 35 minutes in total.

For the Listening assessment (Outcome 1) you will need to answer questions in English to show that you have understood the important details of a spoken text lasting up 2-3 minutes.

For the Speaking assessment (Outcome 2) you will have to take part in, for example, a role-play in Gaelic, or to prepare and deliver a short presentation in Gaelic (1-2 minutes long) on a topic of your choice, and then have a follow up conversation about the presentation. The oral assessment will last a maximum of four minutes.

If you do not achieve a Pass at the first attempt, an opportunity for reassessment will be given.

Depending on your reason for taking the Unit, the content and the assessments for the Unit may be tailored to take account of any special circumstances your work may involve.

### **Core Skills**

There are no opportunities to develop Core Skills in this Unit.
