

Higher National Unit Specification

General information

Unit title: History D: Specialist Study (SCQF level 8)

Unit code: FK7T 35

Superclass: DB

Publication date: July 2018

Source: Scottish Qualifications Authority

Version: 01

Unit purpose

This unit is designed to develop learners' knowledge and understanding of an event or series of events from the field of history. The unit involves interpreting and analysing main developments and sources in order to enhance understanding.

It is intended for learners who have progressed through studies in history and who would use it as the basis for further study.

Outcomes

On successful completion of the unit the learner will be able to:

- 1 Analyse the main developments associated with a specific situation, or a particular event, or series of events.
- 2 Analyse the contribution of selected sources in enhancing the understanding of that particular event or series of events.

Credit points and level

1 Higher National Unit credit(s) at SCQF level 8: (8 SCQF credit points at SCQF level 8)

Recommended entry to the unit

Learners should possess good communication skills. Other knowledge, skills and experience relevant to the unit would also be beneficial.

Higher National Unit Specification: General information (cont)

Unit title: History D: Specialist Study (SCQF level 8)

Learners would benefit from having achieved HN unit *History A: Introducing Topics within a Historical Period* and HN unit *History B: Analysing Topics within a Historical Period* and HN unit *History C: Evaluating Topics within a Historical Period*.

Ultimately, entry is at the discretion of the centre.

Core Skills

Opportunities to develop aspects of Core Skills are highlighted in the support notes for this unit specification.

There is no automatic certification of Core Skills or Core Skill components in this unit.

Context for delivery

If this unit is delivered as part of a group award, it is recommended that it should be taught and assessed within the subject area of the group award to which it contributes.

This unit is in the optional section of the HND Social Sciences award. It can also be offered as a stand-alone unit.

Equality and inclusion

This unit specification has been designed to ensure that there are no unnecessary barriers to learning or assessment. The individual needs of learners should be taken into account when planning learning experiences, selecting assessment methods or considering alternative evidence.

Further advice can be found on our website www.sqa.org.uk/assessmentarrangements.

Higher National Unit Specification: Statement of standards

Unit title: History D: Specialist Study (SCQF level 8)

Acceptable performance in this unit will be the satisfactory achievement of the standards set out in this part of the unit specification. All sections of the statement of standards are mandatory and cannot be altered without reference to SQA.

Outcome 1

Analyse the main developments associated with a specific situation, or a particular event, or series of events.

Knowledge and/or skills

- ◆ Selection of historical period
- ◆ Identification of situation or event(s)
- ◆ Context of situation or event(s)
- ◆ Analysis of main developments

Outcome 2

Analyse the contribution of selected sources in enhancing the understanding of that particular event or series of events.

Knowledge and/or skills

- ◆ Sources
- ◆ Context of sources
- ◆ Key information/data
- ◆ Value of sources
- ◆ Limitation of sources
- ◆ Analysis of sources

Evidence requirements for this unit

Learners will need to provide evidence to demonstrate their knowledge and/or skills across all outcomes by showing that they can:

- ◆ Identify the situation or event(s)
- ◆ Relate the situation or event(s) to the historical period
- ◆ Explain the main developments of a specific situation or event(s)
- ◆ Analyse the main developments of a specific situation or event(s)
- ◆ Identify sources
- ◆ Relate the sources to context
- ◆ Describe context
- ◆ Identify key information/data
- ◆ Explain the value of sources
- ◆ Explain the limitations of sources
- ◆ Analyse the material contained in the sources

Higher National Unit Specification: Statement of standards (cont)

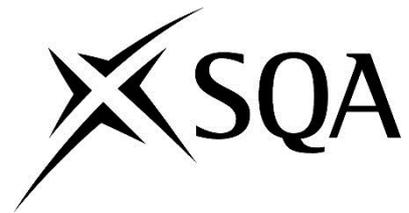

Unit title: History D: Specialist Study (SCQF level 8)

This unit will be holistically assessed by a single, open-book, instrument of assessment covering Outcomes 1 and 2. The assessment topic should be handed out, or negotiated, at an appropriate point in the delivery of the unit and a submission date set.

In response to the task set, the learner must convey complex ideas in a well-structured and coherent form.

A written response should be 2,000 words approximately; an oral response should be 12–15 minutes in duration.

Regardless of the assessment method chosen, the learner must submit a bibliography presented in a standard referencing format, such as Harvard.

Higher National Unit Support Notes

Unit title: History D: Specialist Study (SCQF level 8)

Unit support notes are offered as guidance and are not mandatory.

While the exact time allocated to this unit is at the discretion of the centre, the notional design length is 40 hours.

Guidance on the content and context for this unit

History D is one of four units that cover History within the HNC/D Social Sciences Group Awards. It builds on knowledge and skills demonstrated in *History A: Introducing Topics within a Historical Period*, *History B: Analysing Topics within a Historical Period* and *History C: Evaluating Topics within a Historical Period*. *History D* encourages learners to further develop their analytical and evaluative skills.

A topic or time period should be negotiated with the tutor.

The aim of this unit is to provide an opportunity for learners to acquire an in depth understanding of an event or series of events in the field of history. This will involve critically analysing and evaluating a particular event or series of events within the field of history. The assessment should allow learners to see the complexity of historical processes and the inter-connectivity of various causes or the disparate consequences of any major event. This unit offers learners the opportunity to independently explore past event/s in a format that is engaging and interesting.

Guidance on approaches to delivery of this unit

The delivery of this unit should be learner-centred, and the lecturer should ensure that teaching methods are employed that will fully engage all learners with the topic.

Learners should be encouraged to develop an enquiring mind. Primary and secondary sources should continue to be used, highlighting different explanations/interpretations of a topic, and thereby allowing learners to develop more fully their analytical and evaluative skills.

Centres should structure the teaching programme to allow time for the development of Core Skills and other transferable skills and for assessment practice within the notional hours suggested.

Guidance on approaches to assessment of this unit

Evidence can be generated using different types of assessment. The following are suggestions only. There may be other methods that would be more suitable to learners.

Higher National Unit Support Notes (cont)

Unit title: History D: Specialist Study (SCQF level 8)

This assessment could take the form of an open-book report with an expected learner response of approximately 2,000 words *or* an individual oral presentation *or* poster exhibition with expected learner's response of 12–15 minutes in presentation or explanation of poster *or* any other method that is appropriate to meet the evidence requirements. Learners could also provide the evidence requirements in the form of an individual blog or creation of a website, with approximately 2,000 words. It is important that it is designed with an agreed format to meet all knowledge and skills required across all outcomes.

Centres are reminded that prior verification of centre-devised assessments would help to ensure that the national standard is being met. Where learners experience a range of assessment methods, this helps them to develop different skills that should be transferable to work or further and higher education.

Tutors should make learners aware of the importance of the judicious selection of appropriate academic sources. They should be encouraged to choose academic sources rather than generic search engines, to enable them to be more confident of information, particularly as this unit is at SCQF level 8.

Centres should design an appropriate assessment instrument based on a method that is suitable in allowing learners to meet the evidence requirements. This can be written or oral (depending on the needs of the learners and the organisational aspects for the centre in choosing particular methods). If an oral method is chosen, it is recommended that centres should record this (either by DVD or digital recorder, etc) or provide assessor notes on the presentation for external verification purposes. Oral presentations (or poster exhibitions) must be done individually as each learner has to show evidence of meeting all evidence requirements, so a group presentation would not be suitable.

If the centre is using a blog or creation of a website as the way to gather evidence, this should not be in the public domain. Rather it should be on an intranet or private area of a VLE to reduce the likelihood of plagiarism. Authenticating a learner's work is essential. It would be helpful to collect notes or PPT presentation materials from a learner as further evidence of meeting SCQF level 8 in the presentation.

A centre can choose a mixture of methods across a cohort, as it may be more suitable for some learners to give a written response and for others to use an oral method. The time across all the evidence requirements covered would be 12–15 minutes (not 12–15 minutes each for the poster and for the oral presentation, but rather combining both in the time). They should also be done on the same occasion. Whichever method is chosen the learners should be allowed access to notes, text books or other materials, as the assessment must be conducted open-book.

Centres should make sure they can authenticate a learner's work. This may be done by questioning a learner about their work, by seeing drafts of work under construction, by having a partial write-up in the presence of the assessor or by using an anti-plagiarism tool, such as Turnitin or SafeAssign, which checks internet sites.

Remediation should be done by a review of the original work. Learners should be asked to hand in a complete piece of work, with amendments incorporated in the appropriate context, rather than a large add-on at the end, or asked to fully rewrite their work to a prescribed format if it did not meet requirements. Oral clarification could be used for minor omissions or to clarify minor detail. If it is thought appropriate that a learner tackle a different topic or question, then that new submission would count as a re-assessment.

Higher National Unit Support Notes (cont)

Unit title: History D: Specialist Study (SCQF level 8)

In oral work, learners can be questioned by the assessor at the end of their presentation or explanation, where minor omissions occur, or where clarity is required. This would help to reduce the need for re-assessment. However, where more work is required to meet the evidence requirements (eg, where the quality of evidence is poor in a presentation) another presentation of the same duration, on the same topic or question as the original would be required. Only where a different topic or question is attempted would this be classed as re-assessment.

Opportunities for e-assessment

E-assessment may be appropriate for some assessments in this unit. By e-assessment we mean assessment which is supported by Information and Communication Technology (ICT), such as e-testing or the use of e-portfolios or social software. Centres which wish to use e-assessment must ensure that the national standard is applied to all learner evidence and that conditions of assessment as specified in the evidence requirements are met, regardless of the mode of gathering evidence. The most up-to-date guidance on the use of e-assessment to support SQA's qualifications is available at www.sqa.org.uk/e-assessment.

Opportunities for developing Core and other essential skills

The delivery and assessment of this unit may contribute towards the development of Core Skills in *Communication* and *Information and Communication Technology*. It can also support the development of other transferable skills, such as, essay writing, referencing, citation and bibliography skills and thinking, analytical and critical skills.

It is possible to develop **Communication at SCQF level 6** if the assessment takes the form of an essay or oral presentation. **For Written Communication at SCQF level 6 the skill is: produce well-structured written communication on complex topics.** To develop this skill learners can be encouraged in both formative and summative assessment to present all essential ideas/information and supporting detail in a logical and effective order; use a structure that is organised and use paragraphing to make distinctions between facts, opinions, arguments and conclusion, use a format, layout, and word choice which are appropriate to the content and context, and use spelling, punctuation, vocabulary and sentence structures which are consistently accurate. It is part of the evidence requirements for the unit to ensure learners convey complex ideas in a well-structured and coherent way. This can be stressed in delivery and in formative work, as well as being considered in summative assessment.

The learners could be tasked with producing a Written Communication which presents, analyses, and evaluates a substantial body of information. These skills can be developed through formative activities, such as shorter essays, without being formally assessed for certification of the Core Skill. The task of evaluating and interpreting data from a specified period is complex and therefore should easily fit with SCQF level 6.

It is important to develop essay-writing skills for learners' future progression. In doing this, learners should also be encouraged to use an appropriate referencing method, such as Harvard, for any formative or summative essays. Referencing, citation and bibliography skills are best developed using the vehicle of formative essay writing. It is part of the summative assessment to have an appropriate bibliography submitted in a standard referencing format.

Higher National Unit Support Notes (cont)

Unit title: History D: Specialist Study (SCQF level 8)

For Oral Communication at SCQF level 6 the skill is: produce and respond to oral communication on a complex topic. In both formative and summative assessment, the learner could be encouraged to give a detailed oral presentation on evaluating and interpreting data from a specified period, which would be a complex topic. The specific skills of using an appropriate level of vocabulary, consistent spoken language structures and formality, conveying all essential information, opinions, or ideas with supporting detail accurately and coherently, and with varied emphasis as appropriate and responding to others, taking account of their contributions would be developed in an oral presentation or in an oral explanation of a poster exhibition. Although a summative assessment would require individual work and individual presentation, a formative assessment could be constructed that would encourage learners to work in a small group, with a few people contributing to the presentation. This may allow a learner to experience the demands of oral presentation before choosing this as an option for summative assessment of the unit (if the centre is able to give that choice).

As it is important that learners submit a bibliography (or reference section) in a standard format, such as Harvard, for the summative assessment, even oral assessment methods should incorporate an appropriate bibliography.

For the Core Skill of *Information and Communication Technology (ICT)* at SCQF level 5 the skills are: ‘Accessing Information, use ICT independently, effectively, and responsibly to access information within a range of tasks’ and ‘Providing/Creating Information, use ICT independently, effectively, and responsibly to carry out a range of processing tasks’. This unit can help to develop such skills by the use of mini formative presentations using PowerPoint or other ICT presentation tool that will also support the development of oral communication. A summative assessment using ICT presentation methods is also possible. Specific areas of accessing information using internet searches or VLE use and providing and creating information can be developed in such tasks. Creating a blog or a website for the summative assessment is another way in which this Core Skill can be developed. This could be used where learners (and their lecturer) have particular skills and interest in ICT.

Thinking, analytical and critical skills could be developed by posing questions at appropriate points in the delivery, enabling discussion and promoting the need for learners to take responsibility for learning by encouraging the development of research skills via the internet or using text books.

Curriculum for Excellence

The Curriculum for Excellence aspires to place learners at the centre of the curriculum and develop their capacities as Successful Learners, Confident Individuals, Responsible Citizens and Effective Contributors. The four capacities will be developed throughout this unit.

This unit will develop the literary and communication skills of the learners by way of formative and summative assessments. Independent learning is required throughout the unit, whilst the opportunity is available to group learning through formative tasks. The subject of history demands independent thinking allowing the learners to reach satisfactory conclusions by way of reasoned evaluation. Further opportunity is offered to develop technological skills by way of research via the internet, the production of word documents, PowerPoint presentations, blogs and/or the creation of a website. Collectively, these skills contribute towards the creation of a **Successful Learner**.

Higher National Unit Support Notes (cont)

Unit title: History D: Specialist Study (SCQF level 8)

Time management skills should improve during the delivery of this unit, as should the ability to relate to others through formative group tasks. The topics in *History D* should allow the learner to develop their own thoughts of the world around them, and they will be given the opportunity to express these views within the classroom setting. This should lend to the emergence of a **Confident Individual**, particularly if they gain success in the achievement of the unit.

History D can also contribute to learners becoming **Responsible Citizens** by allowing the opportunity to develop knowledge and understanding of the world, and Scotland's place in it. Furthermore, informed ethical views of complex issues can be developed, as can an understanding of different cultures.

Learners can become **Effective Contributors** to society by learning to work together effectively in teams within the class setting. This can be achieved through group-work where they can apply critical thinking within new contexts. In planning group tasks, evaluating data and presenting their findings, learners will also develop problem solving skills. Both oral and written communication skills will also be developed. This can be achieved through written work, individual PowerPoint presentations, and the creation of blogs and websites.

All these skills are achievable within the unit.

History of changes to unit

General information for learners

Unit title: History D: Specialist Study (SCQF level 8)

This section will help you decide whether this is the unit for you by explaining what the unit is about, what you should know or be able to do before you start, what you will need to do during the unit and opportunities for further learning and employment.

This unit will focus on **one** specified historical period. Within the unit, you will examine certain developments in human society and in doing so identify major events, provide an explanation as to why these events occurred, and consider the impact these events have had. You will be expected to use historical sources to support an interpretation and also to compare and contrast different approaches/responses to events.

This unit will be holistically assessed by a single, open-book, instrument of assessment covering all evidence requirements for Outcomes 1 and 2.

This assessment may be a written essay of approximately 2,000 words, or could be broken down into a set of structured questions with an overall response of approximately 2,000 words, or an oral presentation of 12–15 minutes or a poster exhibition with oral explanation of approximately 12–15 minutes, or another method decided by your centre. Learners could also provide the evidence requirements in the form of an individual blog or creation of a website, with approximately 2,000 words.

Your centre will inform you of the chosen method, which will be open-book. This means that you will be allowed access to materials (eg, text books, notes, VLE).

As you progress through the unit material, you will be encouraged to develop the Core Skills of *Communication* at SCQF level 6 and *Information and Communication Technology* at SCQF level 5 by the types of activities you will experience.

You will also be given opportunities throughout the unit to develop as a successful learner, a confident individual, a responsible citizen and an effective contributor.
