Higher National Graded Unit specification: instructions for designing the assessment task and assessing candidates

Graded Unit title: Financial and Business Management: Graded Unit 1

Conditions of assessment

The assessment is based on a closed-book examination lasting three hours.

If a candidate does not achieve a pass or if a candidate wishes to upgrade, this must be based on a significantly different examination from that given originally. A candidate's grade will be based on his/her achievement on the new assessment event using a significantly different examination, if this results in a higher grade.

The examination should be unseen and the assessment should be conducted in controlled and invigilated conditions.

At all times, the security, integrity and confidentiality of examinations must be ensured.

Centres are reminded that the examination should be unseen. As such, centres must ensure that candidates do not know any of the following details in advance of the examination:

- ◆ Whether the financial statements will be for a partnership or a limited company;
- ◆ Which three narrative questions (from the choice of five) will be given for both Sections A and B of Part 2
- ◆ The exact details of the narrative questions.

Instructions for designing the assessment task

The examination should be designed to assess the candidate's critical knowledge and understanding of the topics relating to the specific aims which this Graded Unit is designed to cover. The questions and corresponding marks should be designed in accordance with the ranges indicated in the table that follows. However, the overall total mark for the examination is 100.
