Rationale

All new and revised National Courses reflect Curriculum for Excellence values, purposes and principles. They offer flexibility, provide more time for learning, more focus on skills and applying learning, and scope for personalisation and choice.

In this Course, and its Component Units, there will be an emphasis on skills development and the application of those skills. Assessment approaches will be proportionate, fit for purpose and will promote best practice, enabling learners to achieve the highest standards they can.

This Course provides learners with opportunities to continue to acquire and develop the attributes and capabilities of the four capacities as well as skills for learning, skills for life and skills for work.

All Courses provide opportunities for learners to develop breadth, challenge and application, but the focus and balance of the assessment will be appropriate for the subject area.

Relationship between the Course and Curriculum for Excellence values, purposes and principles

Advanced Higher Latin supports lifelong learning for students of all ages. Learning about the cultures of our world or about the social and political dimensions of our society will be enhanced by an awareness of the contributions made by Roman civilisations.

Advanced Higher Latin provides learners with the opportunity to:

- ◆ develop deeper understanding of how language works, and use further developed language skills to communicate ideas and information with clarity
- ◆ use creative and critical thinking to synthesise ideas and arguments
- ◆ enhance their enjoyment and their understanding of their own and other cultures through the study of literature and language
- ◆ develop language competence further to support understanding and communication
- ◆ explore a particular area of interest in Latin and/or Roman civilisation through an independent study at an advanced level on a topic of their choice
- ◆ use different media effectively for learning and communication

Advanced Higher Latin provides learners with the opportunity to develop linguistic awareness and analytical skills in translation and interpretation, through the study of Latin texts. Learners develop an appreciation of the interconnected nature of languages and an understanding of Roman civilisation and its influence on their own culture and that of others.

Learners encounter a wide range of different types of texts in different media. Building on the four capacities, the Course enables learners to communicate, be critical thinkers, develop cultural awareness, be creative and be able to work independently.
