*6 credits at Access 2 in **any** combination of units from:*
National Clusters
National Units

Total 24 Credits

Core skills required*

The above must include or cover:
5 core skills at minimum of Access 2

*See Important Note on page 4.

†Designed by the centre to meet the candidate's needs

Rules for credit contribution in specific and open sections

Important Note*   Achievement above the minimum requirements

The specification shows the **minimum** requirements for the single, double and triple SGAs at Access 3. Where possible, centres may wish to encourage candidates to exceed this minimum. Candidates achieving above the minimum award will have this achievement recorded on their Scottish Qualifications Certificate. For example, the following can be achieved above the minimum requirement:

- Core Skills at a level above Access 2
- National Clusters and Units at Access 3 instead of the credits at Access 2

Hierarchies

- courses/clusters and units can be substituted by those with the same title at a higher level, eg Numeracy (Acc 2) can be substituted by Numeracy (Acc 3) (See Section E)

Double counting

- courses/clusters and units with the same title at different levels cannot both contribute credits to the SGA, eg **either** Personal and Social Education (Acc 3) **or** Personal and Social Education (Int 1)

- courses/clusters at the same level in the same subject cannot both contribute credits to the SGA, eg **either** the National Cluster in English and Communication at Access 3 **or** Standard Grade English at Foundation Level (See Section F)

- same course/cluster or unit cannot contribute credit to both specific and open sections of an SGA

Gaelic (Learners) and Gàidhlig

- Gaelic (Learners) and Gàidhlig courses cannot both contribute credits to the SGA

- Candidates can choose **either** the Gaelic (Learners) or Gàidhlig course, not both

Specific section

A

SGAs at Access 3

This section specifies the mandatory number of clusters/coherent groupings and units and the mandatory core skills requirement for the following awards:

Scottish Group Award: Single Award

| Two National Clusters or coherent groupings from: |
| Any National Clusters or National Units at Access 3 | 6 credits |

Total credits required: 6

Scottish Group Award: Double Award

| Three National Clusters or coherent groupings from: |
| Any National Clusters or National Units at Access 3 | 9 credits |

| plus three further credits from: |
| Any National Cluster or National Units at Access 3 | 3 credits |

Total credits required: 12

Scottish Group Award: Triple Award

| Four National Clusters or coherent groupings from: |
| Any National Clusters or National Units at Access 3 | 12 credits |

| plus six further credits from: |
| Any National Clusters or National Units at Access 3 | 6 credits |

Total credits required: 18

** Core skills requirement

Communication at Access 2
Numeracy at Access 2
Information Technology at Access 2
Problem Solving at Access 2
Working with Others at Access 2

** See Section D for core skills details.

Open section

6 credits at minimum of Access 2 are required to complete this SGA.

The 6 credits may be made up from any combination of the following qualifications. Each has a fixed credit value for the purposes of this SGA.

Qualifications	Credit
National Units at Access 2 or above	each typically 1
National Clusters at Access 2 or above	each 3
Standard Grades at Foundation Level contribute credits at *Access 3**	each 4
Free-standing core skills units (if required to complete the core skills requirement)	each 1
Skillstart (Access 2) contributes credits at *Access 2**	each 6
Skillstart (Access 3) contributes credits at *Access 3**	each 6
SVQs at Level 1 can contribute credits at *Intermediate 1*	max 6

*If achieved prior to 1994 please contact SQA Helpdesk ☎ 0141 242 2214.

Note: There are many ways in which the 6 credits at Access 2 can be achieved and the following sections are provided for your information.

Open section: Qualifications which can contribute credits to this group award.
Programme advice: Guidance on possible combinations of units and courses which candidates might choose in order to gain the required credits.

Centres and candidates should agree the most appropriate way of gaining the required credits to meet each candidate's individual needs.

Rules for credit contribution in specific and open sections

Important Note*   Achievement above the minimum requirements

The specification shows the **minimum** requirements for the single, double and triple SGAs at Access 3. Where possible, centres may wish to encourage candidates to exceed this minimum. Candidates achieving above the minimum award will have this achievement recorded on their Scottish Qualifications Certificate. For example, the following can be achieved above the minimum requirement:

- Core Skills at a level above Access 2
- National Clusters and Units at Access 3 instead of the credits at Access 2

Hierarchies

- courses/clusters and units can be substituted by those with the same title at a higher level, eg Numeracy (Acc 2) can be substituted by Numeracy (Acc 3) (See Section E)

Double counting

- courses/clusters and units with the same title at different levels cannot both contribute credits to the SGA, eg **either** Personal and Social Education (Acc 3) **or** Personal and Social Education (Int 1)

- courses/clusters at the same level in the same subject cannot both contribute credits to the SGA, eg **either** the National Cluster in English and Communication at Access 3 **or** Standard Grade English at Foundation Level (See Section F)

- same course/cluster or unit cannot contribute credit to both specific and open sections of an SGA

Gaelic (Learners) and Gàidhlig

- Gaelic (Learners) and Gàidhlig courses cannot both contribute credits to the SGA

- Candidates can choose **either** the Gaelic (Learners) or Gàidhlig course, not both

Note: Advice on making up programmes of credit from the open section follows in Section C.

Programme advice

Candidates having met the requirements of the specific section need to achieve 6 further credits at Access 2. The general rules are defined in Section B.

A wide choice is available to achieve these credits. Centres should consider individual candidate needs, eg for further specialist work within their chosen area of the SGA or for broadening beyond the area covered within the specific section.

Advice has been developed in the following section on possible groupings of units and clusters. This might be useful in the selection of programmes to meet individual candidates' career and progression needs in their chosen area. The groupings are not exhaustive. Centres and candidates can choose other provision from SQA's range of qualifications to build up a coherent programme.

Candidates can make up the remaining credits by selecting clusters and/or units from a range of these groupings or by selecting clusters and/or units from an individual grouping according to their needs.

Please note the rules on hierarchical substitution and double-counting listed in Section B when finalising individual candidate SGA programmes.

Core Skills

Free-standing National Units:
D01B 08	Communication (Acc 2)	1
D01D 08	Information Technology (Acc 2)	1
D01C 08	Numeracy (Acc 2)	1
D01E 08	Problem Solving (Acc 2)	1
D01F 08	Working with Others (Acc 2)	1

Candidates who have not achieved these core skills in other ways must select the required core skills units. See Section D for further information.

One or more core skills in this SGA may be automatically certificated through clusters and units in the specific section. Where this is the case, the corresponding core skill unit in the open section cannot be counted towards the SGA.

Note: Other coherent groupings of units at Access 2 and Access 3 may be selected to meet the needs or interests of candidates. The units should be grouped in ways which reinforce learning, eg in curriculum modes.

Core skills

To achieve this SGA, all candidates **must achieve** the following core skills:

Core skill	Level
Communication	Access 2
Numeracy	Access 2
Information Technology	Access 2
Problem Solving	Access 2
Working with Others	Access 2

Candidates can achieve core skills:

- through Standard Grades or other units which give automatic certification of core skills, eg a candidate who has completed English and Mathematics at Foundation Level is given automatic certification of Communication and Numeracy at Access 3

- by selecting units and clusters which give automatic certification of core skills, eg the Access 3 Drama cluster gives automatic certification of Problem Solving and Working with Others at Access 3

- by selecting dedicated core skills units in the open section of the SGA

Candidates' current level of achievement in core skills is shown on the Scottish Qualifications Certificate in the form of a profile. This shows achievement against each of the core skills *components.* Where a core skill has more than one component, the candidate needs to achieve each component at the level specified for the SGA. For example, if an SGA requires Numeracy at Access 2, a candidate whose profile only shows Using Number at Access 2 would not meet the requirement and would have to achieve Using Graphical Information at Access 2.

Details of all units and clusters which give automatic certification of core skills is published in *Automatic Certification of Core Skills in National Qualifications* (SQA, 1999).

Hierarchical sequences

E

The SQA numbering system for qualifications consists of a 4 + 2 reference code.

The qualifications in a hierarchical sequence have the same title and are available at more than one level. They are identified by their reference code having the same first four digits, eg, D208 in the example below. The last two digits are unique to each level of qualification, eg 08 equates to Access 2, 09 equates to Access 3.

Units

The following is an example of a hierarchical sequence of units:

D208 08   Language Study (Acc 2)
D208 09   Language Study (Acc 3)
D208 10   Language Study (Int 1)
D208 11   Language Study (Int 2)

Where units which are part of hierarchical sequences are specified, candidates who achieve a unit at a higher level than the one specified can use the upper level unit to count as credit towards the group award. For example, Language Study (Int 1) can be counted instead of Language Study (Acc 3).

Candidates can only use one of these units to count as credit towards the group award.

In the case of unrevised National Certificate Modules, ie units which retain their original number, there are hierarchies where the title is the same and the number is different. Details of these exceptions will be published in a separate document. The pattern for these hierarchies is the same as that previously established for GSVQs.

There are also some hierarchies where the titles and numbers of the units at different levels are different. In this specification, if there are two units at different levels with heavily overlapping content, only one of these units should be used to count as credit towards the group award. Details of these exceptions will be published in a separate document.

Courses

The following is an example of a hierarchical sequence of courses and clusters:

C065 08   Music (Acc 2)
C065 09   Music (Acc 3)
C065 10   Music (Int 1)
C065 11   Music (Int 2)

In the SGA specification, where clusters/courses which belong to hierarchical sequences are specified, candidates who achieve a cluster/course at a higher level than the one specified can use the upper level cluster/course to count as credit towards the group award. For example, Music (Int 1) can be counted instead of Music (Acc 3).

Candidates can only use one of these clusters/courses to count as credit towards the group award - a maximum of 3 credits for a cluster and 4 credits for a course.

Standard Grades

Designated Standard Grades at Foundation Level can contribute 4 credits each to the SGA in place of National Courses in the *specific section.*
