## Rules for credit contribution

### Important Note\* Achievement above the minimum requirements

The specification shows the **minimum** requirements for this SGA. Where possible, centres may wish to encourage candidates to exceed this minimum. Candidates achieving above the minimum specification will have this achievement recorded on their Scottish Qualifications Certificate. For example the following can be achieved above the minimum requirement:

- Core Skills at levels above those specified
- more National Courses and Units at Higher instead of the credits at Intermediate 2
- National Course grades, eg grade A or B instead of grade C
- more than the required three National Courses, in which case each additional course completed counts as four credits

### Hierarchies

- courses and units can be substituted by those with the same title at a higher level, eg French (Int 2) can be substituted by French (H) (See Section C)

### Double counting

- courses and units with the same title at different levels cannot both contribute credits to the SGA, eg **either** French (Int 2) **or** French (H)
- courses at the same level in the same subject cannot both contribute credits to the SGA, eg **either** the National Course in German at Higher **or** SCE Higher Grade German (See Sections D and E)
- same course achieved with different grades cannot both contribute credits to the SGA, eg **either** Higher Hospitality – Professional Cookery at grade A **or** Higher Hospitality – Professional Cookery at grade C

### National Course awards at Grade D

National Course awards at Grade D can contribute to the SGA in the following way:

- in place of the specified optional Intermediate 2 Courses, a grade D at Higher (or above) in a Course of the same title can contribute 4 credits to the SGA.

Note - The former compensatory course awards (fallbacks) can also contribute to the SGA:

- in place of the specified optional Intermediate 2 Courses, a compensatory award for a Course of the same title taken at Higher (ie awarded at Intermediate 2) can contribute 4 credits to the SGA.

### Gaelic (Learners) and Gàidhlig

- Gaelic (Learners) and Gàidhlig courses cannot both contribute credits to the SGA
- Candidates can choose **either** the Gaelic (Learners) or Gàidhlig course, not both

## Rules for credit contribution

### Important Note\* Achievement above the minimum requirements

The specification shows the **minimum** requirements for this SGA. Where possible, centres may wish to encourage candidates to exceed this minimum. Candidates achieving above the minimum specification will have this achievement recorded on their Scottish Qualifications Certificate. For example the following can be achieved above the minimum requirement:

- Core Skills at levels above those specified
- more National Courses and Units at Higher instead of the credits at Intermediate 2
- National Course grades, eg grade A or B instead of grade C
- more than the required three National Courses, in which case each additional course completed counts as four credits

### Hierarchies

- courses and units can be substituted by those with the same title at a higher level, eg French (Int 2) can be substituted by French (H) (See Section C)

### Double counting

- courses and units with the same title at different levels cannot both contribute credits to the SGA, eg **either** French (Int 2) **or** French (H)
- courses at the same level in the same subject cannot both contribute credits to the SGA, eg **either** the National Course in German at Higher **or** SCE Higher Grade German (See Sections D and E)
- same course achieved with different grades cannot both contribute credits to the SGA, eg **either** Higher Hospitality – Professional Cookery at grade A **or** Higher Hospitality – Professional Cookery at grade C

### National Course awards at Grade D

National Course awards at Grade D can contribute to the SGA in the following way:

- in place of the specified optional Intermediate 2 Courses, a grade D at Higher (or above) in a Course of the same title can contribute 4 credits to the SGA.

Note - The former compensatory course awards (fallbacks) can also contribute to the SGA:

- in place of the specified optional Intermediate 2 Courses, a compensatory award for a Course of the same title taken at Higher (ie awarded at Intermediate 2) can contribute 4 credits to the SGA.

### Gaelic (Learners) and Gàidhlig

- Gaelic (Learners) and Gàidhlig courses cannot both contribute credits to the SGA
- Candidates can choose **either** the Gaelic (Learners) or Gàidhlig course, not both

## Core skills

B

To achieve this SGA, all candidates **must achieve** the following core skills:

Core skill	Level
Communication	Intermediate 2
Numeracy	Intermediate 2
Information Technology	Intermediate 2
Problem Solving	Intermediate 2
Working with Others	Intermediate 2

One or more core skills units in this SGA may be automatically certificated through mandatory courses and units. Where this is the case, the corresponding core skill unit in this section cannot be counted towards the SGA.

Candidates can achieve core skills:

- through Standard Grades or other units which give automatic certification of core skills, eg a candidate who has completed Standard Grade English at Credit Level is given automatic certification of Communication at Intermediate 2
- by selecting from the group award units and courses which give automatic certification of core skills, eg the unit Hospitality – Professional Cookery gives automatic certification of Problem Solving at Intermediate 2
- by doing dedicated core skills units – these units can contribute credits to the SGA and should be achieved through integration with appropriate subject specialist units. However, if the candidate wishes, the unit credits need not contribute to the SGA.

Candidates' current level of achievement in core skills is shown on the Scottish Qualifications Certificate in the form of a profile. This shows achievement against each of the core skills *components*. Where a core skill has more than one component, the candidate needs to achieve each component at the level specified for the SGA. For example, if an SGA requires Numeracy at Intermediate 2, a candidate whose profile shows Using Number at Intermediate 2 and Using Graphical Information at Intermediate 1 would not meet the requirement and would have to improve in Using Graphical Information.

Details of all courses which give automatic certification of core skills is published in the *Catalogue of Core Skills in National Qualifications* (SQA, 2001/2002).

# Hierarchical sequences

C

The SQA numbering system for qualifications consists of a 4 + 2 reference code.

The qualifications in a hierarchical sequence have the same title and are available at more than one level. They are identified by their reference code having the same first four digits, eg D338 in the example below. The last two digits are unique to each level of qualification, eg 12 equates to Higher, 11 equates to Intermediate 2.

## Units

The following is an example of a hierarchical sequence of units:

D338 10	Language at Work (Int 1)
D338 11	Language at Work (Int 2)
D338 12	Language at Work (H)
D338 13	Language at Work (AH)

Where units which are part of hierarchical sequences are specified, candidates who achieve a unit at a higher level than the one specified can use the upper level unit to count as credit towards the group award. For example, Language at Work (H) can be counted instead of Language at Work (Int 2).

Candidates can only use one of these units to count as credit towards the group award.

In the case of unrevised National Certificate Modules, ie units which retain their original number, there are hierarchies where the title is the same and the number is different. Details of these exceptions will be published in a separate document. The pattern for these hierarchies is the same as that previously established for GSVQs.

There are also some hierarchies where the titles and numbers of the units at different levels are different. In this specification, if there are two units at different levels with heavily overlapping content, only one of these units should be used to count as credit towards the group award. Details of these exceptions will be published in a separate document.

## Courses

The following is an example of a hierarchical sequence of courses:

C059 10	French (Int 1)
C059 11	French (Int 2)
C059 12	French (H)
C059 13	French (AH)

In the SGA specification, where courses which belong to hierarchical sequences are specified, candidates who achieve a course at a higher level than the one specified can use the upper level course to count as credit towards the group award. For example, French (H) can be counted instead of French (Int 2).

Candidates can only use one of these courses to count as credit towards the group award - a maximum of 4 credits.

## Standard Grades

D

Designated Standard Grades at Credit Level can each contribute 4 credits to the SGA in place of corresponding National Courses.

The designated Standard Grade and the corresponding National Courses, either of which can contribute to this SGA, is as follows:

### Standard Grade\*

### National Course

French at Credit Level

French (Int 2)

Gaelic (Learners) at Credit Level

Gaelic (Learners) (Int 2)

German at Credit Level

German (Int 2)

Italian at Credit Level

Italian (Int 2)

Russian at Credit Level

Russian (Int 2)

Spanish at Credit Level

Spanish (Int 2)

\*If achieved prior to 1994 please contact SQA Helpdesk ☎ 0141 242 2214.

## SCE Highers

E

Designated SCE Highers can each contribute 4 credits to the SGA in place of corresponding National Courses.

The designated SCE Highers and their corresponding National Courses, either of which can contribute to this SGA, are as follows:

### **SCE Higher Grade\***

### **National Course**

English	English (H)
French	French (H)
Gaelic (Learners)	Gaelic (Learners) (H)
Gàidhlig	Gàidhlig (H)
German	German (H)
Home Economics	Home Economics – Health and Food Technology (H)
Italian	Italian (H)
Russian	Russian (H)
Spanish	Spanish (H)

\*If achieved prior to 1994 please contact SQA Helpdesk ☎ 0141 242 2214.

Note: SCE Highers do not give automatic certification of core skills. Further information will be published about this in due course.

## SVQs

F

Specific Scottish Vocational Qualifications (SVQs) at the appropriate level can each contribute up to eight credits to an SGA.

SVQs at Level 3 contribute credits at Higher.

SVQs at Level 2 contribute credits at Intermediate 2.

In this particular SGA the following SVQs can each contribute a maximum of eight credits.

Code no	Specific SVQs	Level
<b>007 Providing Goods and Services</b>		
G6FC 23	Food Preparation and Cooking, General	3
G6FA 23	Food Preparation and Cooking – Kitchen and Larder	3
