Evidence can be drawn from a variety of sources and presented in a variety of formats. This can include short written responses, participation in group tasks, presenting information to other groups and/or oral recorded evidence. The evidence can be gathered from a variety of tasks and assessments carried out during the Unit or Course. Learners should use appropriate business terminology and include, where appropriate, the use of real business examples.

Evidence may be presented for individual Outcomes or it may be gathered for the Unit as a whole through combining assessment in one single activity. If the latter approach is used, it must be clear how the evidence covers each Outcome.

Exemplification of assessment is provided in *Unit Assessment Support*. Advice and guidance on possible approaches to assessment is provided in the *Unit Support Notes*
