## Evidence Requirements for the Unit

Assessors should use their professional judgement, subject knowledge and experience, and understanding of their learners, to determine the most appropriate ways to generate evidence and the conditions and contexts in which they are used.

Assessment evidence can be drawn from a variety of sources and presented in a variety of formats. The evidence does not need to be achieved in one activity, but can be assembled from a variety of tasks and assessments undertaken throughout the Award. Evidence may be presented for individual Outcomes or gathered for the Unit or Award as a whole by combining assessment holistically in one single activity.

- ◆ Learners should be given templates to ensure they have the opportunity to record achievement for all Outcomes and Assessment Standards.
- ◆ Learners should keep records of their activities and tasks throughout the project.
- ◆ Learner work should be confirmed by the teacher/lecturer as meeting the relevant Assessment Standard.

Exemplification of assessment will be provided in *Unit Assessment Support*. Advice and guidance on possible approaches to assessment is provided in the *Unit Support Notes*.
