#### **EVIDENCE REQUIREMENTS FOR THIS UNIT**

Evidence is required to demonstrate that candidates have achieved all Outcomes and Performance Criteria.

Written and/or recorded oral evidence should be produced to demonstrate that the candidate has achieved all of the Outcomes and Performance Criteria. The evidence should be produced under supervised conditions to a given brief.

The candidate brief should feature a tour and will provide client profile information and a list of client requirements which will aid the candidate in selecting an appropriate range of destinations in relation to the clients' preferences.

The brief must ensure that candidates are able to demonstrate their ability to locate tourist destinations and provide tourist information on tourist destinations in the European and Mediterranean area to satisfy customer requirements.

The brief should ensure that the candidate provides the following for each destination in their tour:

- ◆ journey times and mileage
- ◆ accessibility
- ◆ attractions
- ◆ amenities
- ◆ reason for choice of destination
- ◆ locates all destinations chosen on a map of the European and Mediterranean area and physical features mentioned

The tour must cover six destinations and must include at least three countries.

The final completion of the tour information and the justification for the selected destinations should be produced under supervised conditions and should take no more than 1 hour and 30 minutes to complete. This may be produced on one assessment occasion or on more than one occasion.

Candidates may have access to notes which they have collected during their research in response to the given brief.

The Assessment Support Pack for this Unit provides sample assessment material. Centres wishing to develop their own assessments should refer to the Assessment Support Pack to ensure a comparable standard.

## **National Unit Specification: support notes**

### **UNIT**      European and Mediterranean Area Tourist Destinations (SCQF level 5)

This part of the Unit Specification is offered as guidance. The support notes are not mandatory.

While the exact time allocated to this Unit is at the discretion of the centre, the notional design length is 40 hours.

#### **GUIDANCE ON THE CONTENT AND CONTEXT FOR THIS UNIT**

This Unit is an optional Unit within the National Qualifications Group Award (NQGA) for Travel and Tourism at SCQF 5 and 6. It provides progression to Travel Geography Units that form part of the Higher (SCQF level 6) course in Travel and Tourism and relevant HNC programmes.

This Unit should be delivered within the context of current information and reference should be made to current industry publications.

The Unit is designed to develop the candidate's working knowledge of a selection of tourist destinations within the European and Mediterranean area. The Unit will also develop knowledge of tourist destinations suitable for different client requirements.

Appendix 1 details the full content and context of this Unit.

#### **GUIDANCE ON LEARNING AND TEACHING APPROACHES FOR THIS UNIT**

Both Outcomes could be taught simultaneously.

A candidate centred, resource-based learning approach is recommended, supported by teacher/lecturer explanation of key points, concepts and suggested strategies. Maximum use should be made of authentic materials and access to the industry through specialists, placements and site visits as appropriate and feasible within the limits of time and other resources.

The use of visual materials is recommended eg DVD/video, transparencies and/or slides produced using software packages, maps, atlases and brochures are essential given the range of information and destinations to be covered. Many candidate-centred activities can be designed around the task of identifying destinations and their physical features. Through a task orientated approach, skills in selecting and using correct information will be developed, in addition to knowledge of destinations themselves. Individual candidate activities could focus on selected case studies using brochures, travel guides, published maps and the internet. Board games, quizzes and role play may also be used effectively.

#### **OPPORTUNITIES FOR CORE SKILL DEVELOPMENT**

Throughout the learning, teaching and assessment of this Unit candidates may have the opportunity to develop *Communication* skills. When candidates are producing the evidence for the Unit the material that they produce in response to the brief could be delivered either in a Written Communication (including graphical information, climate information, temperatures etc) format or presented orally. In compiling the evidence candidates will need to access a range of materials either on the internet or in brochures, books, maps, transport time tables etc. This may allow the opportunity to develop *IT* and *Numeracy* skills.

### **GUIDANCE ON APPROACHES TO ASSESSMENT FOR THIS UNIT**

#### **Opportunities for the use of e-assessment**

E-assessment may be appropriate for some assessments in this Unit. By e-assessment we mean assessment which is supported by information and communications technology (ICT), such as e-testing or the use of e-portfolios or e-checklists. Centres which wish to use e-assessment must ensure that the national standard is applied to all candidate evidence and that conditions of assessment as specified in the Evidence Requirements are met, regardless of the mode of gathering evidence. Further advice is available in *SQA Guidelines on Online Assessment for Further Education (AA1641, March 2003)*, *SQA Guidelines on e-assessment for Schools (BD2625, June 2005)*.

It is recommended that an integrated approach to assessment is taken as follows:

The candidate could be provided with a case study featuring a tour of Europe, the tour should include two summer-sun destinations, two cities, one event destination, and one activity destination. Client profile information should be provided and an extensive list of requirements which will aid the candidate in selecting an appropriate range of destinations in relation to client preferences.

It should be noted that the tour assessment method is not meant to be testing the candidate's tour planning skills but uses the tour as a practical and more interactive approach to assessment as well as being more vocationally relevant whilst still testing the candidate's knowledge of the European and Mediterranean area and the candidate's ability to provide relevant tourist information for a particular client type. However, the candidate's tour should follow a logical sequence.

#### **CANDIDATES WITH DISABILITIES AND/OR ADDITIONAL SUPPORT NEEDS**

The additional support needs of individual candidates should be taken into account when planning learning experiences, selecting assessment instruments, or considering alternative Outcomes for Units. Further advice can be found in the SQA document *Guidance on Assessment Arrangements for Candidates with Disabilities and/or Additional Support Needs* ([www.sqa.org.uk](http://www.sqa.org.uk)).
