

National Unit Specification: general information

UNIT Theatre Stage Lighting Operations (SCQF level 6)

CODE F693 12

SUMMARY

This Unit is designed to provide candidates with the knowledge and skills to operate and maintain lighting equipment for a theatre production. Although this Unit may be delivered in conjunction with other Technical Theatre Units, it may be offered on a free-standing basis and is suitable for candidates who have an interest in and/or some previous experience in technical aspects of theatre.

The candidate will interpret and implement a given lighting plan and rig, focus, colour, test and operate lighting equipment. Throughout, the candidate will apply knowledge and understanding of theatre lighting equipment and awareness of relevant health and safety issues.

This is a mandatory Unit within the National Certificate in Technical Theatre (SCQF level 6), but can also be taken as a free-standing Unit.

OUTCOMES

- 1 Demonstrate knowledge and understanding of theatre lighting.
- 2 Prepare and set up lighting equipment according to a given plan.
- 3 Plot lighting states and run lighting cues.

RECOMMENDED ENTRY

Entry is at the discretion of the centre.

Administrative Information

Superclass: LE

National Unit Specification: general information (cont)

UNIT Theatre Stage Lighting Operations (SCQF level 6)

CREDIT VALUE

1 credit at Higher (6 SCQF credit points at SCQF level 6).

*SCQF credit points are used to allocate credit to qualifications in the Scottish Credit and Qualifications Framework (SCQF). Each qualification in the Framework is allocated a number of SCQF credit points at an SCQF level. There are 12 SCQF levels, ranging from Access 1 to Doctorates.

CORE SKILLS

There is no automatic certification of Core Skills in this Unit.

This Unit provides opportunities for candidate to develop aspects of the following Core Skills:

- **♦** Communication
- ♦ Problem Solving
- ♦ Working with Others

These opportunities are highlighted in the Support Notes of this Unit Specification.

National Unit Specification: statement of standards

UNIT Theatre Stage Lighting Operations (SCQF level 6)

Acceptable performance in this Unit will be the satisfactory achievement of the standards set out in this part of the Unit Specification. All sections of the statement of standards are mandatory and cannot be altered without reference to SQA.

OUTCOME 1

Demonstrate knowledge and understanding of theatre lighting.

Performance Criteria

- (a) Describe a range of theatre lighting equipment.
- (b) Explain theatre lighting terminology accurately.
- (c) Identify relevant health and safety issues.

OUTCOME 2

Prepare and set up lighting equipment according to a given plan.

Performance Criteria

- (a) Identify lighting requirements.
- (b) Select appropriate resources and equipment.
- (c) Rig, focus and colour lighting equipment.
- (d) Adhere to relevant health and safety requirements.

OUTCOME 3

Plot lighting states and run lighting cues.

Performance Criteria

- (a) Carry out lighting checks.
- (b) Plot and record lighting states.
- (c) Run the sequence of lighting cues.
- (d) Adhere to relevant health and safety requirements.

National Unit Specification: statement of standards (cont)

UNIT Theatre Stage Lighting Operations (SCQF level 6)

EVIDENCE REQUIREMENTS FOR THIS UNIT

Evidence is required to demonstrate that candidates have achieved all Outcomes and Performance Criteria.

Outcome 1

Written and/or oral evidence is required to reflect the candidate's ability to:

- identify a minimum of five items of lighting equipment and describe their use
- demonstrate knowledge of theatre lighting terminology
- demonstrate knowledge of a range of key health and safety issues

This evidence will be obtained under closed-book conditions at an early point during the delivery of the Unit.

Outcome 2

Performance evidence, supported by an Assessor Observation Checklist, is required to demonstrate that the candidate can interpret the lighting requirements from a given lighting plan. The lighting plan will be provided by the tutor and will be derived from a short dramatic extract. The plan must allow sufficient breadth and focus to allow the candidate to rig and colour for a minimum of four different lighting states and eight lighting cues. The given plan must contain a minimum of 12 lanterns of mixed types. The candidate must demonstrate an ability to follow health and safety procedures and guidelines.

The evidence for this Outcome will be gathered on an ongoing basis in supervised conditions at appropriate points during the delivery of the Unit.

Outcome 3

Performance evidence, supported by an Assessor Observation Checklist, is required to show that the candidate has acquired the knowledge and skills necessary to:

- focus a range of generic lanterns
- control a range of varied lanterns from a lighting control desk
- plot lighting states
- run lighting cues
- adhere to relevant health and safety requirements

The evidence for this Outcome will be gathered in supervised conditions on an on-going basis at appropriate points during the delivery of the Unit.

The Assessment Support Pack (ASP) for this Unit provides sample assessment material including assessor checklists. Centres wishing to develop their own assessments should refer to the Assessment Support Pack to ensure a comparable standard.

National Unit Specification: support notes

UNIT Theatre Stage Lighting Operations (SCQF level 6)

This part of the Unit Specification is offered as guidance. The support notes are not mandatory.

While the exact time allocated to this Unit is at the discretion of the centre, the notional design length is 40 hours.

GUIDANCE ON THE CONTENT AND CONTEXT FOR THIS UNIT

This is a mandatory Unit within the National Certificate in Technical Theatre (SCQF level 6), but can also be taken as a free standing Unit.

This is a predominantly practical Unit providing the candidate with knowledge and skills in theatre lighting operations. Throughout, the implementation of safe working practices should be a focus. This focus should not be in detailed knowledge of health and safety legislation, but on the practical application of safe working and an understanding of where to access health and safety information. Where possible, this Unit may be integrated with other Units within the National Certificates in Technical Theatre (SCQF level 6) and Acting and Theatre Performance (SCQF level 6).

In Outcome 1, the candidate will have the opportunity to learn and use appropriate terminology specific to lighting within the context of technical theatre.

Lighting terminology and equipment may be drawn from the following, as appropriate:

- operation: fades; cross-fades; blackout; fade; cues
- lighting: working lights; house lights; cyclorama wash; general cover
- plans: lighting plan; symbols; numbering
- colour: mixing; mood; effects; atmospheres
- equipment: lanterns profile spot; fresnels; PAR; floods
- beam control: shutters; barn doors; gobos; effects
- focus: pan; tilt; beam; focus
- installation: rigging to bars; grid; truss; cabling; clamps; fittings
- functions: faders; masters; presets; memory; group; playback

For Outcome 2 candidates should be given time and opportunity to develop practical skills in rigging and focusing lighting equipment. The opportunity should be given to cover as wide a range of lighting effects as time permits.

For Outcome 3 rehearsal time should be allocated for operating the lighting plan and correcting any problems which may arise.

GUIDANCE ON LEARNING AND TEACHING APPROACHES FOR THIS UNIT

A possible sequence of learning and teaching might be: an introduction to technical equipment and health and safety procedures; instruction on the correct procedures for maintaining and storing the equipment; practice in the use of equipment and interpretation of lighting plans; practice in operating equipment according to a plan.

National Unit Specification: support notes (cont)

UNIT Theatre Stage Lighting Operations (SCQF level 6)

The learning and teaching environment should be mainly practical to allow for the on-going acquisition of the knowledge and skills required. Throughout, tutor feedback is invaluable in order to inform next steps and candidates should be encouraged to offer feedback to others as an effective way of developing, learning and working as part of a small group or team.

The candidate should be guided in the ability to match the lighting plan to the constraints of the performance/teaching space, especially in regard to the availability of lanterns and dimmers. Solutions to any identified problems should be appropriate and practical and agreed in consultation with the tutor.

One approach could be that candidates keep a folio of their work during the Unit. This could include background information, notes and images on lighting ideas, written/graphic work, preliminary and agreed lighting plans and cue sheets.

OPPORTUNITIES FOR CORE SKILL DEVELOPMENT

Candidates will be producing written and/or oral evidence for Outcomes 1 as part of the assessment, which offers ideal opportunities to develop aspects of the Core Skill *Communication*.

Candidates will also have the opportunity to develop aspects of the Core Skill *Working with Others* if the practical assignments for Outcomes 2 and 3 are delivered in a class/group environment.

Candidates are required to demonstrate that they can interpret the lighting requirements from a given plan for Outcome 2. This presents opportunities for developing aspects of the Core Skill *Problem Solving*.

GUIDANCE ON APPROACHES TO ASSESSMENT FOR THIS UNIT

Formative assessment should operate as an integral part of the learning and teaching in this Unit. It should include discussion and observation of the candidate's work, supported by detailed checklists.

An awareness of assessment requirements and arrangements at the outset of this Unit will lend purpose to candidates' learning. In addition, it may be possible to integrate this Unit with other Units in the National Certificate in Technical Theatre (SCQF level 6), providing a realistic and practical framework for assessment.

A suitable instrument of assessment for Outcome 1 could be short answer questions.

A suitable instrument of assessment for Outcomes 2 and 3 is a practical assignment.

Time should be allowed for any necessary re-assessment.

National Unit Specification: support notes (cont)

UNIT Theatre Stage Lighting Operations (SCQF level 6)

Opportunities for the use of e-assessment

E-assessment may be appropriate for some assessments in this Unit. By e-assessment we mean assessment which is supported by information and communications technology (ICT), such as e-testing or the use of e-portfolios or e-checklists. Centres which wish to use e-assessment must ensure that the national standard is applied to all candidate evidence and that conditions of assessment as specified in the Evidence Requirements are met, regardless of the mode of gathering evidence. Further advice is available in SQA Guidelines on Online Assessment for Further Education (AA1641, March 2003), SQA Guidelines on e-assessment for Schools (BD2625, June 2005).

DISABLED CANDIDATES AND/OR THOSE WITH ADDITIONAL SUPPORT NEEDS

The additional support needs of individual candidates should be taken into account when planning learning experiences, selecting assessment instruments, or considering whether any reasonable adjustments may be required. Further advice can be found on our website **www.sqa.org.uk/assessmentarrangements**
