

National Unit specification: general information

Unit title: Manage Work Activities and Resources (SCQF level 6)

Unit code: H0TT 12

Superclass: TF

Publication date: March 2012

Source: Scottish Qualifications Authority

Version: 01

Summary

This Unit provides candidates with an introduction to the key principles and involved with confirming work activities. It will develop the candidate's knowledge, understanding and practical skills in managing work activities and resources. This Unit is suitable for candidates working towards a Modern Apprenticeship in the Construction (Technical Occupations) suite.

Outcomes

- 1 Explain how to prepare for planning the work activities.
- 2 Explain factors that impact on the work programme.
- 3 Manage the work activities and procedures.

Recommended entry

Entry is at the discretion of the centre.

Credit points and level

1 National Unit credit at SCQF level 6: (6 SCQF credit points at SCQF level 6*)

**SCQF credit points are used to allocate credit to qualifications in the Scottish Credit and Qualifications Framework (SCQF). Each qualification in the Framework is allocated a number of SCQF credit points at an SCQF level. There are 12 SCQF levels, ranging from Access 1 to Doctorates.*

General information (cont)

Unit title: Manage Work Activities and Resources (SCQF level 6)

Core Skills

Achievement of this Unit gives automatic certification of the following:

Complete Core Skill None

Core Skill component Critical Thinking at SCQF level 5

There are also opportunities to develop aspects of Core Skills which are highlighted in the Support Notes of this Unit Specification.

National Unit specification: statement of standards

Unit title: Manage Work Activities and Resources (SCQF level 6)

Acceptable performance in this Unit will be the satisfactory achievement of the standards set out in this part of the Unit specification. All sections of the statement of standards are mandatory and cannot be altered without reference to SQA.

Outcome 1

Explain how to prepare for planning the work activities.

Performance Criteria

- (a) Explain methods for evaluating work activities against the project requirements.
- (b) Explain how available information is used to assess the resources required for the work.
- (c) Describe methods of clarifying information from the customer, manufacturers, trade literature, organisational procedures.
- (d) Explain and evaluate influencing factors which can impact on the project requirements and work activities.
- (e) Explain how to determine the sequence of work activities and how to prepare a programme of work.

Outcome 2

Explain factors that impact on the work programme.

Performance Criteria

- (a) Explain how the requirements of zero/low carbon impact on the work activities.
- (b) Explain how resources can be used to make a positive contribution to the environment.
- (c) Explain circumstances that might require a change to the workplan.
- (d) Explain how to identify where alterations are needed to the workplan.
- (e) Explain how to assess the impacts of changed circumstances on work activities.

Outcome 3

Manage the work activities and procedures.

Performance Criteria

- (a) Assess the work required from the available information and plan a sequence of work.
- (b) Evaluate the work activities correctly against project requirements.
- (c) Evaluate external factors influencing the work.
- (d) Identify factors that might impact on each other.
- (e) Record alterations to the work correctly.
- (f) Inform relevant others of required changes to work.

National Unit specification: statement of standards (cont)

Unit title: Manage Work Activities and Resources (SCQF level 6)

Evidence Requirements for this Unit

Evidence is required to demonstrate that the candidate has achieved this Unit to the standard specified in the Outcomes and Performance Criteria. Candidate training and assessment should take place in as realistic an environment as possible to that of a live working site.

Performance and knowledge evidence is required to demonstrate that the candidate has achieved the standard specified in the Outcomes and Performance Criteria.

Performance and knowledge evidence must be produced at an appropriate point in training under supervised conditions once the candidate has developed the necessary skills and knowledge required to carry out the assessment. This evidence must be supplemented with a completed assessor observational/operational checklist.

Evidence must be demonstrated by the candidate confirming work activities and resources for the following work programmes:

- ◆ Action lists
- ◆ Method statements
- ◆ Duration
- ◆ Schedules

And dealing with the following external factors

- ◆ Other related programmes
- ◆ Special working conditions
- ◆ Weather conditions

Candidates must adhere to relevant Health and Safety regulations and legislation relating both to working practices within the construction environment, as well as those specific to any practical task they are requested to carry out (such as emphasising the importance of selecting and using the correct PPE at all times).

Oral or written evidence of knowledge and understanding may be demonstrated by the candidate during practical assignments set for all Outcomes and Performance Criteria and noted at the time by the training assessor.

National Unit specification: support notes

Unit title: Manage Work Activities and Resources (SCQF level 6)

This part of the Unit specification is offered as guidance. The support notes are not mandatory.

While the exact time allocated to this Unit is at the discretion of the centre, the notional design length is 50 hours.

Guidance on the content and context for this Unit

The Outcomes and Performance Criteria for this Unit can be demonstrated by the candidate confirming work activities and resources for the following work programmes:

- ◆ Action lists
- ◆ Method statements
- ◆ Duration
- ◆ Schedules

And dealing with the following external factors

- ◆ Other related programmes
- ◆ Special working conditions
- ◆ Weather conditions

Health and Safety are vital to working practices within the construction industry and therefore, emphasis will be placed wherever appropriate during the delivery of this Unit on the correct application of Health and Safety principles and processes, in accordance with current codes of practice and legislation.

Guidance on learning and teaching approaches for this Unit

These notes are for guidance purposes only, and are not to be considered as a complete training package for centres to follow.

The introductory training for this Unit should take place in a separate training area independent of the productive work environment. This should cover theoretical and practical principles before any practical application of knowledge is carried out by candidates.

Delivery of this Unit will be focussed on enabling candidates to develop the knowledge required for managing work activities and resources safely before they are given the opportunity to do so within the workplace environment. Candidates should learn and be encouraged to communicate the theories and principles behind good management techniques. Delivery of this Unit should also ensure candidates learn about the different work activities and resources involved and use the correct terminology, before any practical work takes place. Emphasis will also be placed on the importance of candidates accurately understanding and interpreting the information provided.

National Unit specification: support notes (cont)

Unit title: Manage Work Activities and Resources (SCQF level 6)

E-learning approaches may be appropriate to help tailor delivery to suit the individual needs or learning styles of candidates. This might include, for example, encouraging learners to use electronic resources to conduct research into a specific knowledge area.

Opportunities for integrated delivery of the Core Skills and knowledge developed in the mandatory Units may be possible within the practical activities in this Unit.

Opportunities for integrated delivery of the Core Skills and knowledge developed in other Units may be possible within the practical activities in this Unit.

Guidance on approaches to assessment for this Unit

Centres may use the method of assessment which they consider to be most appropriate but are encouraged to use the Training Assessment Programme (TAP) developed centrally by SQA. It is expected that candidates will have to demonstrate current knowledge and understanding of safe working practice and risk assessment methods, etc prior to being set the assessment tasks.

Knowledge and understanding of the processes involved in managing work activities and resources should be assessed before any practical assignments are carried out by candidates.

Practical assignments should be carried out under supervised conditions and recorded in an assessor observation/operational checklist. Assessments should confirm that a candidate has the ability to safely manage work activities and resources whilst adhering to current statutory Health and Safety regulations and legislation.

Adherence to current statutory working regulations and Health and Safety procedures will be observed during the practical exercise carried out by the candidate towards all Outcomes.

Detailed assessment material for this Unit will be found in the relevant Training and Assessment Programme (TAP). Centres may use the instruments of assessment which they consider to be most appropriate but are advised to use the TAP which has been developed centrally by SQA. Any other instruments of assessment used must be comparable to the TAP and have been prior verified.

Opportunities for the use of e-assessment

E-assessment may be appropriate for some assessments in this Unit. By e-assessment we mean assessment which is supported by Information and Communication Technology (ICT), such as e-testing or the use of e-portfolios or e-checklists. Centres which wish to use e-assessment must ensure that the national standard is applied to all candidate evidence and that conditions of assessment as specified in the Evidence Requirements are met, regardless of the mode of gathering evidence. Further advice is available in *SQA Guidelines on Online Assessment for Further Education (AA1641, March 2003)*, *SQA Guidelines on e-assessment for Schools (BD2625, June 2005)*.

National Unit specification: support notes (cont)

Unit title: Manage Work Activities and Resources (SCQF level 6)

Opportunities for developing Core Skills

The opportunity for the Core Skill *Working with Others* (SCQF level 3) will be provided as candidates ensure the safety of others as they comply with codes of practice and working regulations. Throughout this Unit, candidates will be expected to develop the Core Skill of *Communication* (SCQF level 3) within the work environment, for example to inform others of any safety considerations, using the correct terminology and a tone appropriate to the workplace environment. In addition, assessment processes may enable candidates the opportunity to develop their written communication skills.

This Unit has the Critical Thinking component of Problem Solving embedded in it. This means that when candidates achieve the Unit, their Core Skills profile will also be updated to show they have achieved Critical Thinking at SCQF level 5.

Disabled candidates and/or those with additional support needs

The additional support needs of individual candidates should be taken into account when planning learning experiences, selecting assessment instruments, or considering whether any reasonable adjustments may be required. Further advice can be found on our website www.sqa.org.uk/assessmentarrangements
