# Assessment

To gain the award of the Course, the learner must pass all of the Units as well as the Course assessment. Course assessment will provide the basis for grading attainment in the Course award.

## Course assessment

SQA will produce and give instructions for the production and conduct of Course assessments based on the information provided in this document.

## Added value

The purpose of the Course assessment is to assess added value of the Course as well as confirming attainment in the Course and providing a grade. The added value for the Course will address the key purposes and aims of the Course as defined in the Course Rationale. It will do this by addressing one or more of breadth, challenge, or application.

In this Course assessment, added value will focus on the following:

- ◆ breadth — drawing on knowledge and skills from across the Course
- ◆ challenge — requiring greater depth or extension of knowledge and/or skills
- ◆ application — requiring application of knowledge and/or skills in practical or theoretical contexts as appropriate

This added value consists of:

- ◆ Drawing on, extending and applying the skills, knowledge and understanding the learner has acquired during the Course. This will be assessed by a question paper and an assignment. Over the Course assessment there will be broad parity between the assessment of skills and knowledge and understanding.
- ◆ Demonstrating breadth of skills, knowledge and understanding from across the Units of the Course in the question paper. This will sample knowledge and understanding from across all three Units of the Course and will require the application of skills.
- ◆ Demonstrating challenge and application related to an appropriate Modern Studies issue in the assignment.

## Grading

Course assessment will provide the basis for grading attainment in the Course award.

The Course assessment is graded A–D. The grade is determined on the basis of the total mark for all Course assessments together.

A learner's overall grade will be determined by their performance across the Course assessment.

**Grade description for C**

For the award of Grade C, learners will have demonstrated successful performance in all of the Units of the Course. In the Course assessment, learners will typically have demonstrated successful performance in relation to the mandatory skills, knowledge and understanding for the Course.

**Grade description for A**

For the award of Grade A, learners will have demonstrated successful performance in all of the Units of the Course. In the Course assessment, learners will typically have demonstrated a consistently high level of performance in relation to the mandatory skills, knowledge and understanding for the Course.

**Credit**

To take account of the extended range of learning and teaching approaches, remediation, consolidation of learning and integration needed for preparation for external assessment, six SCQF credit points are available in Courses at National 5 and Higher, and eight SCQF credit points in Courses at Advanced Higher. These points will be awarded when a Grade D or better is achieved.

## Structure and coverage of the Course assessment

The Course assessment will consist of two Components: a question paper and an assignment.

### Component 1 — question paper

The purpose of this question paper is to demonstrate application of skills and breadth of knowledge and understanding from across the three Units of the Course.

This question paper will give learners an opportunity to demonstrate the following higher-order cognitive skills and knowledge and understanding from the mandatory content of the Course:

- ◆ detecting and explaining the degree of objectivity using a range of sources of information
- ◆ drawing and supporting complex conclusions using a range of sources of information
- ◆ giving detailed explanations, analysis and evaluation of complex issues

The question paper will have 60 marks (66% of the total mark).

This question paper has three Sections.

**Section 1**, titled 'Democracy in Scotland and the United Kingdom', will have 20 marks. This Section will be made up of extended response questions requiring the learner to draw on the knowledge and understanding and apply the skills acquired during the Course. Questions will draw on the knowledge and understanding and skills described in the further mandatory information on Course coverage.

**Section 2**, titled 'Social Issues in the United Kingdom', will have 20 marks. This Section will be made up of extended response questions requiring the candidate to draw on the knowledge and understanding and apply the skills acquired during the Course. Questions will draw on the knowledge and understanding and skills described in the further mandatory information on Course coverage.

**Section 3**, titled 'International Issues', will have 20 marks. This Section will be made up of extended response questions requiring the candidate to draw on the knowledge and understanding and apply the skills acquired during the Course. Questions will draw on the knowledge and understanding and skills described in the further mandatory information on Course coverage.

Candidates will answer one question, out of 20 marks, assessing knowledge and understanding and higher-order skills of analysis **and** evaluation. This question may be set in any Section of the paper and candidates will have a choice of question.

Candidates will answer two questions, out of 12 marks each, assessing knowledge and understanding and higher-order skills of analysis **or** evaluation. These questions may be set in any Section of the paper and candidates will have a choice of question.

Candidates will answer two source-based information-handling skills questions, out of 8 marks each, which assess the skills of: detecting and explaining the degree of objectivity; and drawing and supporting complex conclusions. These questions may be set in any Section of the paper, and candidates will have no choice of question. These

questions will consist of between two and three sources of information at an appropriate level of detail and complexity for this SCQF level. Sources may be written, numerical, graphical or pictorial.

The question paper Component of the Course assessment will have a greater emphasis on the assessment of knowledge and understanding, than the assignment. The other marks will be awarded for the demonstration of skills.

### **Component 2 — assignment**

The purpose of this assignment is to demonstrate challenge and application by demonstrating skills, knowledge and understanding within the context of a contemporary issue.
