The purpose of the Course Assessment Specification is to ensure consistent and transparent assessment year on year. It describes the structure of the Course assessment and the mandatory skills, knowledge and understanding that will be assessed.

Course assessment structure

Total marks	80 marks

This Course includes six SCQF credit points to allow additional time for preparation for Course assessment. The Course assessment covers the added value of the Course.

Equality and inclusion

This Course Assessment Specification has been designed to ensure that there are no unnecessary barriers to assessment. Assessments have been designed to promote equal opportunities while maintaining the integrity of the qualification.

For guidance on assessment arrangements for disabled learners and/or those with additional support needs, please follow the link to the Assessment Arrangements web page: www.sqa.org.uk/sqa/14977.html.

Guidance on inclusive approaches to delivery and assessment of this Course is provided in the *Course Support Notes*.

Assessment

To gain the award of the Course, the learner must pass all of the Units as well as the Course assessment. Course assessment will provide the basis for grading attainment in the Course award.

Course assessment

SQA will produce and give instructions for the production and conduct of Course assessments based on the information provided in this document.

Added value

The purpose of the Course assessment is to assess added value of the Course as well as confirming attainment in the Course and providing a grade. The added value for the Course will address the key purposes and aims of the Course, as defined in the Course Rationale. It will do this by addressing one or more of breadth, challenge, or application.

In this Course assessment, added value will focus on the following:

- ◆ breadth — drawing on knowledge and skills from across the Units
- ◆ challenge — requiring greater depth or extension of knowledge and/or skills
- ◆ application — requiring application of knowledge and/or skills in practical or theoretical contexts as appropriate

The added value consists of:

- ◆ Drawing on, extending and applying the skills, knowledge and understanding they have acquired during the Course. This will be assessed by a question paper and an assignment. Over the Course assessment there will be broad parity between the assessment of skills, knowledge and understanding.
- ◆ Demonstrating breadth of skills, knowledge and understanding from across the Units of the Course in the question paper. This will sample knowledge and understanding from across all three Units of the Course and will require the application of skills.
- ◆ Demonstrating challenge and application related to an appropriate historical event or theme in the assignment.

Grading

Course assessment will provide the basis for grading attainment in the Course award.

The Course assessment is graded A–D. The grade is determined on the basis of the total mark for all Course assessments together.

A learner's overall grade will be determined by their performance across the Course assessment.

Grade description for C

For the award of Grade C, learners will have demonstrated successful performance in all of the Units of the Course. In the Course assessment, learners will typically have demonstrated successful performance in relation to the mandatory skills, knowledge and understanding for the Course.

Grade description for A

For the award of Grade A, learners will have demonstrated successful performance in all of the Units of the Course. In the Course assessment, learners will typically have demonstrated a consistently high level of performance in relation to the mandatory skills, knowledge and understanding for the Course.

Credit

To take account of the extended range of learning and teaching approaches, remediation, consolidation of learning and integration needed for preparation for external assessment, six SCQF credit points are available in Courses at National 5 and Higher, and eight SCQF credit points in Courses at Advanced Higher. These points will be awarded when a grade D or better is achieved.

Structure and coverage of the Course assessment

The Course assessment will consist of two Components: a question paper and an assignment.

Component 1 — question paper

The purpose of this question paper is to demonstrate application of skills and breadth of knowledge and understanding from across the Course.

Further mandatory information on Course coverage is provided at the end of this *Course Assessment Specification*.

This question paper will give learners an opportunity to demonstrate the following skills, knowledge and understanding:

- ◆ developing and applying knowledge and understanding and skills across contexts from Scottish, British and European/world history
- ◆ evaluating the origin, purpose, content and context of a wide range of historical sources
- ◆ explaining the impact of historical developments analysing the factors contributing towards historical developments, drawing a reasoned conclusion
- ◆ demonstrating a detailed factual knowledge and understanding of historical themes and events in Scottish, British, European and world contexts

The question paper will have 60 marks out of a total of 80 marks. The question paper is therefore worth 75% of the overall marks for the Course assessment.

There is differentiation within each question.

The question paper will have three Sections:

- ◆ Section 1: Historical Study: Scottish (20 marks).
- ◆ Section 2: Historical Study: British (20 marks).
- ◆ Section 3: Historical Study: European and World (20 marks).

Each Section will have 20 marks. Each Section will be made up of restricted response/extended response questions requiring the learner to draw on the knowledge and understanding and apply the skills acquired during the Course. The questions will be drawn from the mandatory content of the Course.

Candidates can be asked to describe an event or development, explain an event or development, analyse a historical issue, place a source in its historical context, compare two sources and evaluate the usefulness of a source.

The question paper Component of the Course assessment will have a greater emphasis on the assessment of knowledge and understanding than the assignment. The other marks will be awarded for the demonstration of skills.

Component 2 — assignment

The purpose of this assignment is to demonstrate challenge and application by demonstrating the following skills, knowledge and understanding within the context of a historical question.

The learner will:

- ◆ choose, with minimum support, an appropriate historical question or issue
- ◆ collect relevant evidence from at least two sources of information
- ◆ organise and use the information collected to address the historical question or issue
- ◆ draw on knowledge and understanding to explain and analyse the causes and/or impact of the historical question or issue
- ◆ refer to at least two relevant historical sources
- ◆ identify different perspectives and/or points of view
- ◆ structure information and present a reasoned conclusion supported by evidence

The assignment will have 20 marks out of a total of 80 marks. The assignment is therefore worth 25% of the overall marks for the Course assessment.

The assignment Component of the Course assessment will have a greater emphasis on the assessment of skills than the question. The other marks will be awarded for the demonstration of knowledge and understanding.
