

# Draft National Unit Specification

---

**Unit title:** Creating Materials for Display (Access 2)

**SCQF:** level 2 (6 SCQF credit points)

**Unit code:** to be advised

---

## Unit outline

The general aim of this Unit is to develop the learner's skills in producing simple creative work for display such as painting, drawing, ceramics, jewellery, sculpture, and modelling by using a variety of materials, techniques and processes.

Learners who complete this Unit will be able to:

- 1 Demonstrate simple skills and knowledge across a range of techniques, processes and materials used to produce creative work for display
- 2 Produce and display original creative work

This Unit is an optional Unit of the Access 2 Creative Arts Course and is also available as a free-standing Unit. The Unit Specification should be read in conjunction with the *Unit Support Notes* which provide advice and guidance on delivery, assessment approaches and development of skills for learning, skills for life and skills for work. Exemplification of the standards in this Unit is given in the *National Assessment Resource*.

## Recommended entry

Entry to this Unit is at the discretion of the centre. In terms of prior learning and experience, relevant experiences and outcomes may also provide an appropriate basis for doing this Unit. Further information on relevant experiences and outcomes will be given in the *Unit Support Notes*.

## Equality and inclusion

This Unit Specification has been designed to ensure that there are no unnecessary barriers to learning or assessment. The individual needs of learners should be taken into account when planning learning experiences, selecting assessment methods or considering alternative evidence. For further information please refer to the *Unit Support Notes*.

# Standards

## Outcomes and assessment standards

### Outcome 1

The learner will:

- 1 Demonstrate simple skills and knowledge across a range of techniques, processes and materials used to produce creative work for display by:**
  - 1.1 Working with a range of techniques, processes and materials
  - 1.2 Developing simple ideas to create materials for display

### Outcome 2

The learner will:

- 2 Produce and display original creative work by:**
  - 2.1 Choosing an item of creative work for display
  - 2.2 Choosing techniques and processes appropriate to the chosen item
  - 2.3 Choosing simple materials appropriate to the chosen item
  - 2.4 Using selected techniques, processes and materials
  - 2.5 Creating original work
  - 2.6 Displaying the finished creative work

## Evidence Requirements for the Unit

Assessors should use their professional judgement, subject knowledge and experience, and understanding of their learners, to determine the most appropriate ways to generate evidence and the conditions and contexts in which they are used.

Evidence may be presented for individual Outcomes or it may be gathered for the Unit as a whole through integrating assessment holistically for both Outcomes. If the latter approach is used, it must be clear how the evidence covers each Outcome.

For Outcomes 1 and 2, evidence which demonstrates the learner's selection and use of simple techniques, processes and materials appropriate to the creative activity is required. A minimum of two different techniques and processes and two materials should be chosen.

Evidence should capture the processes followed by the learner while using their skills, techniques and ideas, as well as their finished work.

Only one piece of original creative work for display needs to be produced to provide the required evidence.

Evidence can be in the form of logs, checklists, photographic evidence, video evidence or equivalent.

Exemplification of assessment will be provided in the *National Assessment Resource*. Advice and guidance on possible approaches to assessment is provided in the *Unit Support Notes*.

## **Development of skills for learning, skills for life and skills for work**

It is expected that learners will develop broad, generic skills through this Unit. The skills that learners will be expected to improve on and develop through the Unit are based on SQA's *Skills Framework: Skills for Learning, Skills for Life and Skills for Work* and drawn from the main skills areas listed below. These must be built into the Unit where there are appropriate opportunities.

### **3 Health and wellbeing**

- 3.1 Personal learning
- 3.2 Emotional wellbeing

### **5 Thinking skills**

- 5.1 Remembering
- 5.3 Applying
- 5.5 Creating

Amplification of these is given in SQA's *Skills Framework: Skills for Learning, Skills for Life and Skills for Work*. The level of these skills should be at the same SCQF level of the Unit and be consistent with the SCQF level descriptor. Further information on building in skills for learning, skills for life and skills for work is given in the *Unit Support Notes*.
