Evidence Requirements for the Unit

Assessors should use their professional judgement, subject knowledge and experience, and understanding of their learners, to determine the most appropriate ways to generate evidence and the conditions and contexts in which they are used.

Evidence can be drawn from a variety of sources and presented in a variety of formats, including simple written responses to questions, participation in group tasks, presenting information to other groups, and simple digital presentations.

The evidence does not need to come from one activity, but can be assembled from a variety of tasks and assessments carried out during the duration of the Course.

Evidence may be presented for individual Outcomes or gathered for the Unit or Course as a whole by combining assessment holistically in one single activity.

The Outcomes and Assessment Standards require learners to cover one moral question, one religious response and one non-religious response. However, the expectation is that good quality teaching will normally cover a wider range than the minimum required to pass the Unit assessment.

Both Outcomes may be addressed by studying a single moral question.

Religious responses must come from at least one of the world's six major religions (Buddhism, Christianity, Hinduism, Islam, Judaism or Sikhism).

Exemplification of assessment will be provided in the *National Assessment Resource*. Advice and guidance on possible approaches to assessment is provided in the *Unit Support Notes*.

Development of skills for learning, skills for life and skills for work

It is expected that learners will develop broad, generic skills through this Unit. The skills that learners will be expected to improve on and develop through the Unit are based on SQA's *Skills Framework: Skills for Learning, Skills for Life and Skills for Work* and drawn from the main skills areas listed below. These must be built into the Unit where there are appropriate opportunities.

1 Literacy

1.1 Reading

3 Health and wellbeing

4 Employability

4.1 Citizenship

5 Thinking skills

5.2 Understanding

The level of these skills should be at the same SCQF level of the Unit and be consistent with the SCQF level descriptor. Further information on building in skills for learning, skills for life and skills for work is given in the *Unit Support Notes*.
