Evidence for this Unit will be a practical activity and may be either presented for individual Outcomes or gathered for the Unit as a whole through a single activity assessed holistically. If the latter approach is used, it must be clear how the evidence covers each Outcome.

Exemplification of assessment will be provided in the *National Assessment Resource*. Advice and guidance on possible approaches to assessment is provided in the *Unit Support Notes*.

Development of skills for learning, skills for life and skills for work

It is expected that learners will develop broad, generic skills through this Unit. These must be built into the Unit where there are appropriate opportunities.
