Evidence Requirements for the Unit

Assessors should use their professional judgement, subject knowledge and experience, and understanding of their learners, to determine the most appropriate ways to generate evidence and the conditions and contexts in which they are used.

If the Unit is being taken as part of the Higher Politics Course, centres may wish to generate evidence in a way which prepares learners for the Course assessment. Assessment evidence can be drawn from a variety of sources and presented in a variety of formats, including written responses to questions, participation in group tasks, presenting information to other groups, and digital presentations.

All of the evidence does not need to be from the one activity, but can be assembled from a variety of tasks and assessments carried out during the duration of the Course.

Evidence may be presented for individual Outcomes or gathered for the Unit or Course as a whole by combining assessment holistically in one single activity.

Contexts which may be used to generate evidence of successful achievement of the Outcomes of the Unit are:

- ◆ electoral data, such as local and national election results, opinion polls, focus group evidence, party canvass returns
- ◆ psephological studies

- ◆ political commentaries
- ◆ political (auto)biographies and manifestos

Exemplification of assessment will be provided in the *National Assessment Resource*. Advice and guidance on possible approaches to assessment is provided in the *Unit Support Notes*.
