Evidence Requirements for the Unit

Assessors should use their professional judgement, subject knowledge and experience, and understanding of their learners, to determine the most appropriate ways to generate evidence and the conditions and contexts in which they are used.

Evidence is required to show that the learner has met the Outcomes and Assessment Standards.

Assessment evidence can be drawn from a number of activities and presented in a variety of formats, including, for example, presentations, posters, brief written responses to questions and participation in group tasks. All of the evidence does not need to be from the one activity, but can be assembled from a number of tasks and assessments carried out during the duration of the Course.

Evidence may be presented for individual Outcomes or gathered for the Unit, Units or Course as a whole by combining assessment holistically.

~~Contexts which may be used to generate evidence of successful achievement of the Outcomes of the Unit are:~~

- ◆ ~~the political system in Scotland: Scottish Parliament, Scottish legal system, First Minister and Scottish Government~~
- ◆ ~~the political system in the UK: Parliament, Supreme Court, Prime Minister and Cabinet~~
- ◆ ~~the political system in the European Union: European Parliament, European Court of Justice, the Council of the European Union, the European Commission~~
- ◆ ~~the political system in the USA: Congress, Supreme Court, the Presidency~~

Exemplification of assessment is provided in *Unit Assessment Support*.

Advice and guidance on possible approaches to assessment is provided in the *Unit Support Notes*.

The skills that learners will be expected to improve on and develop through the Unit are based on SQA's *Skills Framework: Skills for Learning, Skills for Life and Skills for Work* and drawn from the main skills areas listed below. These must be built into the Unit where there are appropriate opportunities.

Further information on building in skills for learning, skills for life and skills for work is given in the *Unit Support Notes*.
