## Creating Media Content with a Scottish Context (National 3)

**SCQF:** level 3 (9 SCQF credit points)

**Unit code:** H6NK 73

### Unit outline

The general aim of this Unit is to provide learners with the opportunity to develop the skills needed to plan and create simple media content on a Scottish stimulus or on a Scottish theme and to show awareness of production processes. Learners develop basic knowledge of the key aspects of media literacy central to creating simple media content.

Learners who complete this Unit will be able to:

- 1 Create simple media content

This Unit is an alternative mandatory Unit of the National 3 Media Course, an optional Unit in the Scottish Studies Award at SCQF level 3 and is also available as a free-standing Unit. The Unit Specification should be read in conjunction with the *Unit Support Notes* which provide advice and guidance on delivery, assessment approaches and development of skills for learning, skills for life and skills for work.

## **Recommended entry**

Entry to this Unit is at the discretion of the centre. However, relevant experiences and outcomes may also provide an appropriate basis for doing this Unit.

## **Equality and inclusion**

This Unit Specification has been designed to ensure that there are no unnecessary barriers to learning or assessment. The individual needs of learners should be taken into account when planning learning experiences, selecting assessment methods or considering alternative evidence. For further information, please refer to the *Unit Support Notes*.

# Standards

## Outcomes and assessment standards

### Outcome 1

The learner will:

#### 1 Create simple media content by:

- 1.1 Planning and developing ideas in response to a negotiated brief
- 1.2 Using production skills appropriate to the media content and context
- 1.3 Showing awareness of the production process
- 1.4 Applying knowledge of relevant key aspects of media literacy

### Evidence Requirements for the Unit

Assessors should use their professional judgement, subject knowledge and experience, and understanding of their learners, to determine the most appropriate ways to generate evidence and the conditions and contexts in which they are used.

Evidence should be gathered in combination with other Outcomes where possible, in combination with the Outcome from the Unit *Analysing Media Content* (National 3). Evidence may also be gathered for individual Outcomes where appropriate.

For this Unit, learners will be required to create simple media content based on a Scottish stimulus or on a Scottish theme. Learners are required to provide evidence of each of the following in a response to a negotiated brief:

- ◆ simple planning and research skills
- ◆ simple production skills (can include pre-production, production and post-production)
- ◆ basic evaluation skills which show awareness of the production process
- ◆ knowledge of the key aspects of media literacy central to creating simple media content

# Development of skills for learning, skills for life and skills for work

It is expected that learners will develop broad, generic skills through this Unit. The skills that learners will be expected to improve on and develop through the Unit are based on SQA's *Skills Framework: Skills for Learning, Skills for Life and Skills for Work* and drawn from the main skills areas listed below. These must be built into the Unit where there are appropriate opportunities.

## **1 Literacy**

- 1.1 Reading
- 1.3 Listening and talking

## **4 Employability, enterprise and citizenship**

- 4.4 Enterprise
- 4.6 Citizenship

## **5 Thinking skills**

- 5.4 Analysing and evaluating
- 5.5 Creating

Amplification of these is given in SQA's *Skills Framework: Skills for Learning, Skills for Life and Skills for Work*. The level of these skills should be at the same SCQF level of the Unit and be consistent with the SCQF level descriptor. Further information on building in skills for learning, skills for life and skills for work is given in the *Unit Support Notes*.
