

DK5K 04 (HSC239) Contribute to the care of a deceased person

Elements of Competence

HSC239a	Contribute to preparing the deceased person to be moved
HSC239b	Contribute to moving the deceased person

About this Unit

For this standard you need to contribute to the care of a deceased person. Users of this standard will need to ensure practice reflects up to the date information and policies.

Your **knowledge and understanding** will be specifically related to legal requirements and codes of practice and conduct applicable to your job, and the NHS Knowledge and Skills Framework. This will relate to your work activities; the job you are doing, and the setting, eg in hospital and community, domiciliary, residential care, and the individuals you are working with.

Values — the values underpinning this standard are embedded within the 2009 NHS Code of Conduct for Health Care Support Workers. These are stated in full within the Assessment Strategy and Guidance document for the awards.

Key Words and Concepts — a glossary of definitions, key words and concepts used in this Unit is contained in the Assessment Strategy and Guidance document.

In occupational standards it is quite common to find words or phrases used which you will be familiar with, but which, in the detail of the standards, may be used in a very particular way. **You should read the Assessment Strategy and Guidance document before you begin working with the standards and refer to it if you are unsure about anything in the Unit.**

Specific Evidence Requirements for the Unit

It is essential that you adhere to the Evidence Requirements for this Unit

SPECIFIC EVIDENCE REQUIREMENTS FOR THIS UNIT
Simulation:
<ul style="list-style-type: none"> ◆ Simulation is NOT permitted for any part of this Unit. ◆ The following forms of evidence ARE mandatory: ◆ Direct Observation: Your assessor or expert witness must observe you in real work activities. Their confirmation of your practice will provide evidence for a significant amount of the performance criteria in this Unit. For example, your assessor may observe you clean and prepare the deceased person in a place and manner that respects their dignity, their beliefs and culture. ◆ Professional discussion: Describes your actions in a particular situation and reflect on the reason(s) why you practice that way. For example, your assessor may ask you to explain giving an example from practice, how to work with the impact of death on those who have lived and worked closely with the deceased person.
Competence of performance and knowledge could also be demonstrated using a variety of evidence from the following:
<ul style="list-style-type: none"> ◆ Reflective Account: These are written pieces of work which allow you to reflect on the course of action you took in a specific situation to identify any learning from the piece of work and to describe what you might do differently in the light of your new knowledge. ◆ Questioning/professional discussion: May be used to provide evidence of knowledge, legislation, policies and procedures which cannot be fully evidenced through direct observation or reflective accounts. In addition your assessor/mentor or expert witness may also ask questions to clarify aspects of your practice. ◆ Expert Witness: A designated expert witness, eg a senior member of staff, may provide a direct observation of your practice, or record a professional discussion they have held with you on a specific piece of practice. ◆ Witness Testimony: Can be a confirmation or authentication of the activities described in your evidence which your assessor or mentor has not seen. ◆ Products: These can be any record that you would normally use within your normal role, eg you should not put confidential records in your portfolio; they can remain where they are normally stored and be checked by your assessor and internal verifier. ◆ Prior Learning: You may be able to use recorded prior learning from a course of training you have attended within the last two years. Discussion on the relevance of this should form part of your assessment plan for each Unit. ◆ Simulation: There may be times when you have to demonstrate you are competent in a situation that does not arise naturally through your work role, eg dealing with violent or abusive behaviour. The Evidence Requirements in each Unit provide specific guidance regarding the use of simulation.
GENERAL GUIDANCE
<ul style="list-style-type: none"> ◆ Prior to commencing this Unit you should agree and complete an assessment plan with your assessor which details the assessment methods you will be using, and the tasks you will be undertaking to demonstrate your competence. ◆ Evidence must be provided for ALL of the performance criteria, ALL of the knowledge. ◆ The evidence must reflect the policies and procedures of your workplace and be linked to current legislation, values and the principles of best practice within the Health Care sector. This will include the National Service Standards for your areas of work. ◆ All evidence must relate to your own work practice.

DK5K 04 (HSC239) Contribute to the care of a deceased person

KNOWLEDGE SPECIFICATION FOR THIS UNIT

Competent practice is a combination of the application of skills and knowledge informed by values and ethics. This specification details the knowledge and understanding required to carry out competent practice in the performance described in this Unit.

When using this specification **it is important to read the knowledge requirements in relation to expectations and requirements of your job role.**

You need to provide evidence for ALL knowledge points listed below. There are a variety of ways this can be achieved so it is essential that you read the 'knowledge evidence' section of the Assessment Guidance.

You need to show that you know, understand and can apply in practice:	Enter Evidence Numbers
Values	
1 Legal and organisational requirements on equality, diversity, discrimination and rights when contributing to the care of a deceased person.	
2 How to prepare a deceased person as far as possible according to their expressed preferences, beliefs, religion and culture.	
Legislation and organisational policy and procedures	
3 Codes of practice and conduct, and standards and guidance relevant to your own and the roles, responsibilities, accountability and duties of others when contributing to caring for a deceased person.	
4 Current local, UK legislation and organisational requirements, procedures and practices for: (a) accessing records and information (b) recording, reporting, confidentiality and sharing information, including data protection on the care and transfer of the deceased person (c) health, safety, assessing and managing risks associated with caring for deceased people (d) preparing and transferring deceased people who had infectious, contagious and rare diseases and where specific precautions are needed	

DK5K 04 (HSC239) Contribute to the care of a deceased person

Performance Criteria		DO	RA	EW	Q	P	WT	PD
1	Contact the appropriate organisation according to the deceased person's personal beliefs and preferences.							
2	Contact key people according to the deceased person's personal beliefs, expressed wishes and preferences.							
3	handle and transfer the deceased person in ways which: (a) respects and recognises their rights, wishes, culture, beliefs and preferences (b) minimises disturbance and distress to others (c) observes and follows relevant infection control measures							
4	Send relevant information about the deceased person to the appropriate people and organisations within agreed timescales, within confidentiality agreements and according to legal and organisational requirements.							
5	Record and report details of moving the deceased person and transfer according to organisational procedures and practices.							

DO = Direct Observation

RA = Reflective Account

Q = Questions

EW = Expert Witness

P = Product (Work)

WT = Witness Testimony

PD = Professional Discussion
