

Jason Meacher – Glenwood High School

When we come to college we get to work with block heads and stylists who own their own salons and they can teach us more things for example I've learned numerous things. I've learned how to perm, curl with rods, curl with tongs, straighten better, wash, dry and volumising. Things like that. As a guy, I think that guy's can do just as well as women and I think that more guys should get into it because it's just a fun experience, the experience is brilliant.
