

Skills for Work: Year one experiences

Laura Shishodia — St George's School for Girls

'I'm taking an Intermediate 2 Skills for Work in Early Education & Childcare, it's useful to me because I'm going on to do Sociology and Anthropology next year. The Course is absolutely brilliant — you get time to play with kids, chat to kids and learn what a real working environment's like. Considering I don't really know what I'd like to do after University, it's going to be so that if I do want to go into teaching or nursery care, it's a basis for learning for life and how life's going to be after school.'
