

Skills for Work: Year one experiences

Robert Collison — Claremont High School

'It's good to come to college because you get to do more practical stuff than you'd get to do in school. It gives you more of a chance to learn more stuff about trades. It's made me feel more confident because I'm able to see what kind of stuff I'm good at. Coming to college has made me think more about what I'd like to do as a career.'
