SQA Marketing Support Pack

- As launched in the March International Centre Newsletter, we are pleased to inform you that the Marketing Support Pack is now available for you to access.
- The Marketing Support Pack has been developed for SQA-approved centres. It describes what we do as a Marketing department and indicates how we can work in partnership with centres to develop an awareness of SQA qualifications and the services we offer. It answers the questions most frequently raised as well as providing some broad pointers to the support available.
- We trust that you will find the content of this support pack useful in supporting the delivery of SQA qualifications in your centre.

This website offers up to date information on a range of issues affecting the workplace. It is especially useful for employment issues and

Our guide includes the following areas:

What is a Presentation?

A presentation is a means of communication which can be adapted to various speaking situations, such as talking to a group, addressing a meeting or briefing a team. To be effective, step-by-step preparation and the method and means of presenting the information should be carefully considered.

[What is a Presentation?](#)

Preparing Your Presentation

Preparation is the most important part of making a successful presentation. This is the crucial foundation and there should be no short-cuts.

[Preparing Your Presentation](#)

Organising the Presentation Material

Irrespective of whether the occasion is formal or informal, always aim to give a clear, well-structured delivery. You should know exactly what you want to say and the order in which you want to say it. Clarity of ideas and good organisation should result in a lively, logical and compelling message.

[Organising the Presentation Material](#)

Writing Your Presentation

This page offers advice on how to write an effective presentation. Before you write your presentation, you should already have started to prepare by developing your ideas and selecting the main points to include.

[Writing Your Presentation](#)

Deciding the Presentation Method

Few people are able to give a presentation without notes. You will need to know your own abilities and decide how best to make the presentation. You might manage your talk by using full text, notes on cue cards, keywords on cue cards, or mind maps.
