
Overview

This unit is about supporting colleagues in identifying their learning needs and helping to provide opportunities to address these needs. Encouraging colleagues to take responsibility for their own learning is an aspect of this unit as is your role in providing an 'environment', for example, in your team or area of responsibility, in which learning is valued. For the purposes of this unit, 'colleagues' means those people for whom you have line management responsibility.

The unit is divided into three parts.

The first part describes what you have to do and how you should behave.

The second part describes the knowledge and understanding you must have.

The third part gives some examples and explanations of some words we use in the unit.

The unit is recommended for people working in management or development at middle manager level.
