NPA Social Services and Healthcare Web Resources

Learners can be directed to the following resources which are also available on Ushare (http://ushare.education/Ushare/Home) — a sharing place for useful resources recommended by Lecturers, Teachers, Training Providers and other Education Professionals.

There will be many more resources that will be useful for learners — this list is not exhaustive — and is provided as a starting point for learners to begin their research.

Candidates may find the following links useful throughout all Units within the NPA:

Data Protection Act 1998:
