

Report:

Development work on National Qualifications 2011/2012

This is a report collating information on development work relating to National Qualifications - National Units, National Courses, and Group Awards made up of National Units (Awards, National Certificates, National Progression Awards and Professional Development Awards). This refers to information contained in the [Catalogue of National Qualifications](#). The Catalogue will be updated regularly throughout the year and will contain the most up-to-date information about available National Qualifications. Further information about new and revised National Units, National Courses and National Qualification Group Awards can be found on the [NQ section of SQA's website](#). The [NQ Search](#) allows you to search for National Units and Courses by keyword, title or code.

The [NQ Notification of changes to Unit Specifications and Frameworks](#) will also be updated regularly. It shows:

- a summary of changes to Units that warrant a new version number
- where a finish date has been removed or extended
- framework changes.

This report has 5 sections:

- Section 1** National Courses - New and Revised - information about new and revised National Courses developed for implementation in 2011/2012 (including Skills for Work Courses)
- Section 2** National Courses – Deletions - information about National Courses which have been removed from the Catalogue of National Qualifications and action to be taken with their Units
- Section 3** New and revised National Units – a list of new and revised Units which are not part of National Courses
- Section 4** Group Awards made up of National Units - Awards, National Certificates, National Progression Awards and Professional Development Awards - which have been developed since the last report (2010/2011) was published
- Section 5** Deletions - information about all National Units which will not be in the catalogue from session 2011/2012 onwards, some of which are subject to the conditions of a completion period

Updated versions of Arrangements documents

Latest versions of Arrangements documents and updates by Qualifications teams are published on the NQ subject pages of SQA's website. I would like to draw your attention to the following revised Courses, which have new Course codes. These Courses will dual run with the current Highers. Further details are given in this report.

Approval

This report includes information about the **approval implications for new and revised National Courses, Group Awards and Units**

Automatic Approval means that the qualifications are automatically approved for schools and colleges. Any other centres wishing to offer the new qualifications that are not already approved for the full range of auto approved products must complete the [Qualification Approval Application Form](#). You can also contact our Business Development & Customer Support Team on 0303 333 0330, or e-mail MyCentre@sqa.org.uk, for help to make an approval application.

Where a qualification is replacing an existing qualification and there are no significant changes affecting a centre's ability to deliver it, approval extended means that, where centres were approved to offer the existing qualification, approval has been extended to them for the new one. For schools and colleges, this applies to qualifications not on the automatically approved list. For other centres, this applies in any case where a qualification is replacing an existing qualification and there are no significant changes affecting a centre's ability to deliver it.

When approval for a qualification is devolvable to centres, this refers to centres who have gained devolved authority for approval. Colleges with devolved authority seeking approval for devolved, non-automatically approved qualifications must complete an *SQA Form 6 Approval Form (DAAPP 1)* and submit this to the Reference Section: reference@sqa.org.uk.

Approval applications associated with Examination Diet 2012 or where other certificates are expected in August 2012 should be submitted no later than Friday 30 September 2011.

Section 4: Group Awards made up of National Units

A list of Group Awards made up of National Units - Awards, National Certificates, National Progression Awards and Professional Development Awards - which have been developed since the last report (2010/2011) is given here. For details of a Group Award framework, please consult the NQ Catalogue, the subject pages or the Arrangements document for the Group Award, which are available on our website, www.sqa.org.uk. More Group Awards will become available throughout the year and details of these will be provided on our website.

Section 5: National Units-Deletions

*The undernoted National Units which appeared in the 2010/2011 Catalogue of National Qualifications but no longer appear in the Catalogue of National Qualifications are **no longer current and cannot be used**. The majority of these Units have been available for more than five years, but have had no entries for two or more years. If the deletion of these Units will cause your centre any problems, please contact Linda Murray, Project Manager, at linda.murray@sqa.org.uk as soon as possible, outlining your concerns. If there is clear evidence of demand, we will review the decision to delete a Unit.*
