ASSESSMENT

In order to achieve this unit, candidates are required to present sufficient evidence that they have met all the performance criteria for each outcome within the range specified. Details of these requirements are given for each outcome. The assessment instruments used should follow the general guidance offered by the SQA assessment model and an integrative approach to assessment is encouraged. (See references at the end of support notes).

Accurate records should be made of the assessment instruments used showing how evidence is generated for each outcome and giving marking schemes and/or checklists, etc. Records of candidates' achievements should be kept. These records will be available for external verification.

EQUALITY AND INCLUSION

This unit specification has been designed to ensure that there are no unnecessary barriers to learning or assessment. The individual needs of learners should be taken into account when

SQA Advanced unit specification: Support notes

Unit code: HW7P 48

Unit title: Event Management in Sport

This part of the unit specification is offered as guidance. None of the sections of the support notes is mandatory.

The notional design length for this unit is 40 hours. The use of notional design length for programme design and timetabling is advisory only.

PURPOSE

This unit has been designed for those who wish to develop a knowledge in running a sports event. The candidate will be able to design, promote, manage and evaluate a sports event.

CONTENT/CONTEXT

All outcomes and performance criteria will be related to the development of necessary knowledge required in the design, marketing, operation and evaluation of a sports event.

It is expected that candidates will form small organisational groups each of which will undertake an event selected by the group and organised externally. In house events are not acceptable for the level of event. The event should be of sufficient stature to allow meaningful participation in its organisation by all group members and to allow all performance criteria to be met.

The delivery mechanisms of the unit will utilise current international research and developments in sport. This would enable candidates to broaden their perspective and lead towards a more comprehensive understanding of sport in the UK.

Delivery materials can draw upon the extensive range of international information currently available, for example, journals of sport, the internet, international conferences, networks.

ASSESSMENT PROCEDURES Centres may use the instruments of assessment which are considered by tutors to be the most appropriate.
