
Overview

What this standard is about

This standard is about analysing information on the supply chain. It deals with collating and analysing data. It involves using appropriate techniques, identifying problems and providing results.

Who this standard is for

This standard is for supply chain practitioners. This could, for example be in purchasing, freight logistics operations or transport management roles.

SFLSCM114(SQA Unit Code-DX5Y 04) V2

SfL114 Analyse information on the supply chain
