

[SQA Unit Code – DX5K 04] V2

SfL98 Evaluate the capability of suppliers to meet supply specifications

Overview

What this standard is about

This standard is about evaluating the capability of supplies to meet supply specifications. It deals with obtaining and evaluating information in regard to supplies and suppliers. It involves assessing all relevant factors and providing results of evaluation which comply with procedures.

Who this standard is for

This standard is for supply chain practitioners. This could, for example be in purchasing, freight logistics operations or transport management roles.
