

[SQA Unit Code – DX6G 04] V1

SfL128 Obtain information on storage locations and facilities

Overview

What this standard is about

This standard is about obtaining information on storage locations and facilities. It deals with obtaining information in regard to storage locations and facilities. It involves collating and analysing information, assessing benefits and risks, resolving any problems and providing results of analysis and making recommendations for using storage locations and facilities.

Who this standard is for

This standard is for supply chain practitioners. This could, for example be in purchasing, freight logistics operations or transport management roles.
