
Overview

What this standard is about

This standard is about obtaining information on the supply chain. It deals with identifying processes and supplies. It involves sorting and recording information, identifying problems, providing information and making recommendations.

Who this standard is for

This standard is for supply chain practitioners. This could, for example be in purchasing, freight logistics operations or transport management roles.

[SQA Unit Code – DX6K 04] V1

SfL134 Obtain information on the supply chain
