SfL101 Schedule the flow of supplies in the supply chain

Overview

What this standard is about

This standard is about scheduling the flow of supplies. It deals with confirming and specifying information on the flow of supplies and the availability of resources. It involves scheduling the flow, resolving problems, ensuring orders are placed and relevant colleagues are informed.

Who this standard is for

This standard is for supply chain practitioners. This could, for example be in purchasing, freight logistics operations or transport management roles.
