

[SQA Unit Code – DX75 04] V1

SfL103 Select locations and facilities for storing supplies

Overview

What this standard is about

This standard is about selecting locations and facilities for storing supplies. It deals with obtaining and evaluating information in regard to storage locations and facilities. It involves assessing benefits and risks, resolving any problems and providing results of evaluation which comply with requirements.

Who this standard is for

This standard is for supply chain practitioners. This could, for example be in purchasing, freight logistics operations or transport management roles.
