

---

## Overview

This standard is about

- 1 interpreting information for quality standards of the work being carried out
- 2 implementing checks on the quality of work
- 3 confirming work meets with quality standards
- 4 performing a supervisory role within craft and operative work areas as associated with work carried out in the built environment

# COSVR216 - SQA Unit Code F707 04

## Confirm work meets quality standards

---

### Performance criteria

- You must be able to:*
- P1 identify quality standards from available information and clearly specify to the people responsible for their implementation
  - P2 regularly check that work conforms to the design requirements and the specified quality standards
  - P3 identify work that fails to meet the requirements and specified quality standards and implement corrective action
  - P4 regularly inform decision makers about any significant variations in quality standards

### Knowledge and understanding

*You need to know and understand:*

#### Performance Criteria 1

##### Quality standards

- K1 how to identify what the **quality standards** are
- K2 how to pass **quality standards** on to **people responsible** for their implementation during the contract

#### Performance Criteria 2

##### Checks on the quality of work

*You need to know and understand:*

- K3 how to check that **work** conforms to the design requirements and the specified **quality standard**

#### Performance Criteria 3

##### Failures in work quality

*You need to know and understand:*

- K4 how to identify what **work** fails to meet the requirements and specified **quality standards**
- K5 how to implement corrective action where **work** fails to meet the requirements and specified **quality standards**

#### Performance Criteria 4

##### Informing decision makers

*You need to know and understand:*

- K6 how to inform decision makers about significant variations in **quality standards**
- K7 when actions are needed to take account of variations in **quality standards**

## Additional Information

### Scope/range related to performance criteria

#### Performance Criteria 1

- 1 record(s) of identified quality standards and specified responsibilities passed to relevant people

#### Performance Criteria 2

- 2 record(s) of inspection and control procedures for quality work

#### Performance Criteria 3

- 3 record(s) of work defects and required corrective action to be taken

#### Performance Criteria 4

- 4 record(s) of information referred to others which include(s)
  - 4.1 correction of unacceptable quality standards
  - 4.2 notification to decision makers

### Scope/range related to knowledge and understanding

#### People responsible

- 1 suppliers
- 2 workforce
- 3 project team

#### Quality standards

- 4 statutory requirements
- 5 project specifications
- 6 British Standards
- 7 Codes of Practice
- 8 organisational standards
- 9 best practice
- 10 manufacturer's information
- 11 environmental information
- 12 warranties

#### Work

- 13 materials, components and their use
- 14 methods of work
