

PROSF253 (SQA Unit Code - FE5G 04) Prepare fabrics and components for use in soft furnishings

Overview

This standard addresses the competence required to prepare fabric and components used in soft furnishings. This involves:

- 1 preparing fabrics, templates and lays
- 2 laying out fabrics
- 3 matching fabrics
- 4 working in ways which maintain your own and others' safety

There is also a scope statement which defines the coverage of this standard.

PROSF253 (SQA Unit Code - FE5G 04)

Prepare fabrics and components for use in soft furnishings

Performance criteria

Prepare fabrics, templates and lays

You must be able to:

- P1 organise the **materials, tools and equipment** you will need so that you can work effectively and keep your work area tidy
- P2 check that you have the required **work specification** and that it is clear and complete
- P3 obtain the **fabric, templates and lays** and check that they conform to the **specification**
- P4 deal promptly with any **problems** that arise, reporting any which you cannot solve
- P5 follow safe working practices at all times
- P6 keep work area tidy and protect items from damage while they are being worked on
- P7 follow safe working procedures when lifting and moving heavy items
- P8 complete the preparations within the required time
- P9 complete required records so that they are accurate and legible

You must be able to:

Layout and match fabric

- P10 check that the pattern and batch number of the **material** corresponds with the **specification**
- P11 when necessary colour match part rolls and integrate them into the complete job
- P12 mark any **material** faults which are within **specification** limits
- P13 check, when necessary that the pattern of the **material** is matched
- P14 deal promptly and effectively with any **problems** that occur
- P15** follow safe working procedures at all times
- P16** keep your work area tidy and protect the fabric from damage while it is being worked on
- P17 store unused part rolls of **material** in a designated location and position
- P18 complete preparations within required time

PROSF253 (SQA Unit Code - FE5G 04)

Prepare fabrics and components for use in soft furnishings

Knowledge and understanding

You need to know and understand:

Prepare fabrics, templates and lays

- K1 the meaning of terms used in technical specifications for soft furnishings
- K2 the functions of the different types of tools and equipment that are used in soft furnishings
- K3 how to handle sharp and powered tools safely in ways that protect yourself and others from risk
- K4 what your personal responsibilities are with regard to health and safety legislation
- K5 how to set out a work area for efficient working and the health and safety issues that can arise if a work area is disorganised and untidy
- K6 where to obtain the fabric, templates and lays from and how to check that they conform to specification
- K7 what the consequences are of lubricants and debris being left on work surfaces, tools and equipment
- K8 what information should be recorded and why this is important

Layout and match fabric

You need to know and understand:

- K9 the handling and cutting characteristics of different types of materials used in soft furnishings
- K10 the meaning of terms used in technical specifications for soft furnishings
- K11 why it is important to check fabrics, templates and lays against specifications and what to do where there are faults or problems with them
- K12 the handling and rolling out characteristics of different types of fabrics used in soft furnishings
- K13 how to match the pattern if necessary
- K14 how and why to manage the use of part rolls of fabrics
- K15 types of fabric, template and lay faults which occur, how they are identified and how they can be dealt with
- K16 the importance of storing fabrics in suitable locations and positions
- K17 waste limits and why waste should be kept to a minimum
- K18 what your personal responsibilities are with regard to health and safety legislation
- K19 who to report an unsolvable problem to
- K20 equipment storage arrangements and why it is important to follow them
- K21 why it is important to keep to time schedules
- K22 how to dispose of waste in accordance with current legislation

PROSF253 (SQA Unit Code - FE5G 04)

Prepare fabrics and components for use in soft furnishings

Additional Information

Scope

Components

The pieces of material from which a table treatment is fashioned by sewing and other fixing methods. Examples of sewing method could include straight, shaped sews and seams involving simple pleating.

Fabrics

The different forms of material used for making table treatments. These include a range of different fabric, including materials that require careful handling if an accurate cut is to be achieved and components properly aligned e.g. patterned/striped fabrics with a minimum pattern repeat of 25cm, plain and patterned pile, flat weave fabrics.

Fixing methods

This unit covers the use of hand sewing, including slip stitch, ladder stitch and hemming stitch. Machine sewing including flat, french and flat fell seams.

Problems

In relation to the cutting of fabrics, these will be to do with flaws, distortions and colour/pattern variations in the fabric, inaccurate measurements and mis-alignments. In relation to the assembly and sewing process, these will be to do with slipping, fraying, inaccuracies, poor seam quality and equipment faults. The person carrying out this role is responsible for rectifying these types of problems in ways which ensure that the quality of the outcome is not compromised.

Sewing

This unit covers both machine and hand sewing.

Specification

The set of instructions which describe the work to be carried out, including details of the materials to be used including fabric size, colour, and type. The specification will also detail the quality of outcome to be achieved and the time within which it must be completed. In the context of this unit, the outcome quality to be achieved requires that the following criteria be met:

- 1 material cutting and shaping accuracy is to within +/- 5mm, for both single-lay and multi-lay cutting
- 2 component marking is accurate to within +/- 3mm

Trimmings and Decorative Finishes

This unit covers the assembly and/or fixing of piping, braids, fringes, cords, flange cords and braids, applied and inserted into seams, hand and machine sewn. This unit also includes the use of other decorative detailing e.g. pleating, gathering, appliqué, tucks, smocking.

Tools and equipment

This unit covers the use of cutting, measuring and marking equipment and both hand sewing equipment including scissors, pins, needles, thread, tailor's chalk, and sewing machines.
